

## Nancy Dias

President IANANC

Term: 2010 - 2012

Dear IANA-NC members, Greetings to you all.

We have launched ourselves in this new endeavor to bring together the nursing community in North Carolina to share and grow together. It has also been my desire to build ourselves a community where we could share our common goals, ideas, achievements and even our perils. And so I solicit support from all you our fellow Indians in this wonderful profession that we have chosen, to come together to help share what we have in common.

The purpose of the Indian American Nurses Association of North Carolina is to uphold the image of the Indian nurses in U.S.A. as a professional group and to promote the welfare of its members. This organization can serve as a platform not just to promote our rich cultural heritage but also to support and enrich each other in our professional growth. The seeds have just been sowed but it needs to be cared for and watered to bear fruits. Remember “Team work makes a Dream work” – Author Unknown, hence let us all join hands together to make this dream work.

I invite each one of you to be a member of the Indian American Nurses Association here in the heart of North Carolina. At this point and time we have outlined some benefits and purposes, but in order to get started I need each one of you, your commitment and time since what you do and all your efforts are valuable and will make a difference.

Thank you and God bless you!

Sincerely,

Nancy Dias
