

THERAMOVES IS PROUD TO PRESENT BRAIN BALANCE:

HOW TO ASSESS AND TREAT BRAIN IMBALANCES IN CHILDREN WITH NEURODEVELOPMENTAL DISORDERS

PRESENTED BY

DR. ROBERT MELILLO

INTERNATIONAL SPEAKER, NOTED AUTHOR

WHEN

December 9, 2019

8:00am—3:30pm

WHERE

410 Hungry Harbor Road
Valley Stream, Long Island, NY

COURSE DESCRIPTION: This course will provide participants with lecture and hands-on practice for learning how to evaluate and treat **children with neurodevelopmental disorders** such as ADHD, OCD, Autism, and Dyslexia. Attendees will learn how imbalance of the two hemispheres of the brain can lead to neurodevelopmental conditions. Identification of which areas of the brain may be affected as well as why this may occur will be reviewed. Through course demonstration, participants will learn how to use examination tools and techniques to test for brain imbalance. Treatment protocols based on examination findings will then be reviewed. The **role of primitive reflexes** will be addressed, and **remediation activities** will be provided. **Hands-on techniques** to help balance the brain will be demonstrated and practiced. **Participants will leave with a new and exciting approach to evaluating and successfully treating deficits associated with neurodevelopmental learning disorders.**

TO REGISTER PLEASE EMAIL E: INFO@THERAMOVES.COM

P: 347-379-1359 W: WWW.THERAMOVES.COM

TARGET AUDIENCE:

OT'S, OTA'S, PT'S, PTA'S, PSYCHOLOGISTS, SPECIAL EDUCATORS, EDUCATORS, PARA-PROFESSIONAL

LEVEL OF INSTRUCTION:

BEGINNER, INTERMEDIATE

INSTRUCTIONAL METHODS:

LECTURE , POWERPOINT SLIDES, HANDS-ON PRACTICE

COST \$249

EARLY REGISTRATION \$229
POSTMARKED **NOVEMBER 14, 2019**

GROUP OR 3+ \$209
POSTMARKED **NOVEMBER 14, 2019**

CEU'S

6.0 CONTACT HOURS

6 NBCOT PDUs/.6 CEUs,
7.2 contact hours for NY PT's
6 CTLE contact hours

Credits listed are offered by TheraMoves for a full seminar attendance. Partial credit will be issued for partial attendance

CERTIFICATES WILL BE AWARDED

TheraMoves Services, LLC is approved for sponsor by NYS board for OTs and OTAs

TheraMoves is an AOTA Approved Provider of continuing education "The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA." Approved by AOTA for 6 CEU, 6 contact hours, level of instruction mixed, domain of OT performance skills.

Approved by NYSED for Continuing Teacher and Leader Education (CTLE approval 23490)

TheraMoves Services is recognized by the NY SED's state board for PT as an approved provider for PTs and PTAs continuing education

Refreshments will be served, Lunch is on your own

AGENDA

8:00 am – Introduction. Helping the attendees understand the background of hemisphere deficits and why it is important to know the root start and cause for their treatment methods to be goal directed.

9:00 am – The prediction and control of the movement. It is important for the attendees to understanding the interaction with stimuli which increased the complexity of the brain.

10:00 am - Discuss and explain primitive reflexes – The attendees will learn what PR are and most importantly what each one means in relationship to children with neurodevelopmental disorders and the specific steps to remediate.

11:00 am – Continue with the Primitive Reflex discussion: TLR, ATNR

12:00-1:00 lunch (on your own)

1:00 pm – Continue with the Primitive Reflex discussion and how this relates to children with school problems but also how this can be tested and corrected. The attendees will be performing workshop exercises of testing on each other for the reflexes - MORO, Spinal Galant

2:00 pm – Continue with the Primitive Reflex discussion and how this relates to children with school problems but also how this can be tested and corrected. The attendees will be performing workshop exercises of testing on each other for the reflexes—Babinski Reflex, Palmer, Rooting and suck reflex

3:00 pm – Conclusion: The attendees will do workshop activities concluding in the exercises for the retained reflexes and how to do them with their patients.

LEARNING OBJECTIVES: AT THE END OF THIS SEMINAR

THE PARTICIPANT WILL BE ABLE TO...

- ⇒ Attendees will have an understanding of brain imbalances in children with neurodevelopmental disorders; what causes them and how to identify them
- ⇒ Attendees will have a clear method to test for brain imbalances
- ⇒ Attendees will have an understanding of the functions of the right and left hemispheres in children with neurodevelopmental disorders; where the deficits will be and what this means
- ⇒ Attendees will have a clear understanding of the specific treatment therapies that can be done to balance the brain and correct brain imbalances in children
- ⇒ Attendees will have an understanding of the correlation of primitive reflexes with brain imbalances and children with neurodevelopmental disorders
- ⇒ Attendees will have treatment protocols for inhibiting primitive reflexes based upon these findings and the results that can be seen
- ⇒ Attendees will perform examination tools, therapies and treatments within the class to demonstrate their knowledge of the information and understanding

CANCELLATION POLICY: We reserve the right to cancel any course due to extenuating circumstances. Please do not make non-refundable travel arrangements until you contacted us &/or received confirmation that the course will be held. We are not responsible for any expenses incurred by participants if the course must be cancelled.

REFUND POLICY: A full refund less \$75 dollars administrative fee per course will be given for cancellations received up to 10 days prior to the course. After that no refunds will be given for cancellations. This policy will be waived if a replacement participant is found.

DISCLOSURE: Financial: Dr. Robert Melillo, will receive a speaker's honorarium from TheraMoves Services for the presentation. Non-Financial: He has no non-financial relationships to disclose.

PRESENTERS BIO:

Dr. Robert Melillo is one of the world's most sought after and respected experts in Developmental Functional Neurology, Brain Imbalances, hemispheric integration and the diagnosis and correction of most neuro-behavioral disorders and learning disabilities. He is also a successful businessman and entrepreneur and has developed many successful businesses. In 2006, he created Brain Balance Achievement Centers which has approximately 150 centers and has helped tens of thousands of families. He is a prolific author and brain researcher, he has published one major text book titled Neurobehavioral Disorders of Childhood an Evolutionary Perspective. He has coauthored approximately 20 chapters in other texts on various subjects related to Dyslexia, Attention, Frontal Lobe Development etc. and he has also published approximately 50 peer reviewed papers. In addition, Dr. Melillo has also written 5 best-selling books including his best known Disconnected Kids which has been translated into 8 languages. He has presented at numerous scientific and clinical conferences around the world and he also has taught his own course in a post graduate level for over 20 years. Dr. Melillo is an Associate Professor of Developmental Disabilities at National University of Health Sciences, has multiple graduate degrees in Chiropractic, Neurology, Neuroscience and Clinical Rehabilitation Neuropsychology and is the co-founder and past President of the International Association of Functional Neurology and Rehabilitation. He has appeared on over 1000 radio and TV interviews and with his wife Carolyn, developed their own TV and Radio Show. He was honored to be part of Dr. Mark Hyman's recent Documentary Broken Brains as well. He and his wife are also currently the creators of a new webseries Disconnected Kids Reconnected Families. They have been married for 29 years and have three kids. He is honored to be on the Advisory Board for Zac Browns' Camp Southern Ground for children with learning disabilities. Dr. Melillo has a passion as well for doing Personal and Professional Development training and Coaching to help people take their lives to new levels! In 2017 Dr. Melillo also created a line of vitamins called KidGenius and TruGenius.
