Welcome to the 2025-2026 Selective Trial Test Course

The Selective Trial Test Course (STTC) is specifically designed for Year 5 and 6 students as a means of preparing them for the Selective High School Placement Test in Year 6.

Students who enrol in STTC will have access to simulated exam questions in exam-like settings, allowing them to improve their time management skills, minimise errors, overcome test anxiety and achieve their highest potential in the actual exam.

In conjunction with the STTC program, we are dedicated to assisting our students in realising their full potential and fostering their self-assurance to succeed in their selective school placement tests.

What are the benefits of STTC?

STTC prepares students for exam success by introducing them to question formats and simulating the test environment, enabling them to feel more comfortable and confident during the actual exam.

Consistent practice of exam-style questions on a weekly basis will lead to steady improvement in competence. Students' performance is accurately assessed and monitored every week, providing parents with an estimate of the score level their child may achieve on the actual exam.

Parents can better understand which selective schools align with their child's application by evaluating their STTC performance.

How the Selective Trial Tests are organised

- ❖ **Updated Framework:** The STTC framework is designed to accommodate new types of exam questions introduced in recent selective high school placement tests.
- ❖ **Computer-Based:** This course uses a computer-based trial testing system, closely replicating the actual format of selective high school exams.
- ❖ **Weekly Sessions:** Students participate in weekly trial test sessions—covering reading and writing one week, and mathematical reasoning and thinking skills the following week. These sessions continue until the selective school exam.
- ❖ **Test Reviews:** Students work with teachers and tutors to review questions, with a focus on more challenging questions.
- ❖ **Immediate Reports:** Test reports are accessible on Cyberschool right after each session.
- ❖ **Access to Test Questions:** Students are permitted to access STTC test questions only during their scheduled class sessions. This course does not provide take-home test questions. As part of the enrolment process, parents or guardians are required to read and sign the STTC Enrolment Consent Form, confirming their understanding and acceptance of the STTC enrolment conditions.
- ❖ **Cyberschool Service:** Cyberschool resources and services are offered free of charge to students enrolled in the Selective Trial Test Course (STTC). Please note that while complimentary, they are not included in the tuition fee. Access is available for a limited time only and may be subject to change without prior notice. Once the designated access period concludes, these resources and services will no longer be available.

Test Format

The course uses a computer-based testing format, mirroring the actual selective school exam. Students take the tests on individual testing devices provided by the college during class sessions. Students must handle their assigned testing device with care to prevent repair costs. Any damage caused by misuse will be the responsibility of the parents.

Make-Up Test Policy

If students are unable to attend their regular STTC class, they are required to schedule a make-up test at the Strathfield Head Office within ONE week from the missed session. Please note that test reviews will not be available for any make-up tests.

STTC Fee Payment Regulations & Discount Offer

- The current STTC fee is \$75 per session.
- Enrol in full term STTC before the course starting date. If you enrol after the course starting date, you must pay the fee for the remaining number of sessions of the term.
