Common Questions

Q. My test review isn't showing up! What's wrong?

A. If you haven't taken the test yet or your results haven't been graded, you won't see any questions. If you answered all the questions correctly, you also won't see a review. Finally, the review is available only during a specific timeframe (7 days) after the term finishes.

Q. I can't find the specific question I want to review.

A. The review only shows the 10 most challenging maths and thinking skills (general ability for Year 1) questions you missed. If the question you're looking for wasn't one of the hardest 10, it won't be there.
