West-Wood Industries (based in Scoudouc, New Brunswick) announced the sale of its **Norwood Windows and Doors** and its **Millwork Division** to Kohltech Windows & Entrance Systems

Kohltech buys Norwood Windows and Doors in Scoudouc 2026

West-Wood Industries Announces the Sale of Norwood Windows and Doors and its Millwork Division to Kohltech Windows & Entrance Systems.

West-Wood Industries, a family-owned wood window and millwork manufacturer based in Scoudouc, New Brunswick, today announced the sale of Norwood Windows and Doors and its Millwork Division to Kohltech Windows & Entrance Systems, one of Canada's largest window and door manufacturers, headquartered in Debert, Nova Scotia.

The transaction results from a carefully planned succession to secure the business's long-term future, bring new investment to its facilities, and extend the reach of the Norwood brand. Norwood will continue to operate and manufacture in Scoudouc, New Brunswick. It is good news for the employees, customers and supplier partners of both companies.

A Message from Leandre Cormier, Founder of West-Wood Industries.
"Building West-Wood has been the work of my life, and I have never done it alone. Every window, door and piece of millwork that has left our plant carries the skill and the pride of the people who made it. To our employees, past and present: thank you. You are the reason the Norwood name stands for quality across Atlantic Canada and beyond.

Choosing my successor for this business was not a decision I took lightly. I wanted a partner who would invest in our people and our plant, grow our markets, and respect the craftsmanship that has defined us. In Kohltech, we found a partner that shares our culture, values, and commitment to people, customers and community. They have known Norwood for many years, and they understand what makes it special.

To our dealers, customers and suppliers: thank you for your loyalty and your trust over so many years. Your partnership built this company as much as anything we did inside our walls.
I am proud of what we have built together in Scoudouc, and I am excited about the opportunities this new chapter will bring for Norwood, for our team, and for our community."
— Leandre Cormier, Founder and Chairman, West-Wood Industries.

"Welcoming Norwood to the Kohltech family allows us to add solid wood and aluminum clad wood product platforms to our comprehensive offering of windows and doors," said Carl Ballard, President, Kohltech. "Leandre and his team have been one of our top-performing suppliers for many years and have a tradition of quality stretching back more

than seven decades. We plan to invest in growing their production capacity and then to extend their market reach."
