

## **SNB Marketing Board Average Stumpage Rates**

## April 2024- June 2024

NOTE: The average stumpage rates below have been calculated from wood sale stumpage transactions through our Marketing Board from April 1st, 2024, to June 30<sup>th</sup> 2024. Direct stumpage transactions (mill pays producer) are unknown, and for this purpose, can not be included in the calculations.

Please note: Stumpage rates can be influenced by many factors including, but not limited to: harvest prescription, overall volume, quality, piece size, and cost for woodlot roads, highway weight restrictions and distance to mill to name a few.

Like other markets, stumpage can also be influenced by competition. The higher number of logging contractors that compete for stumpage can also drive prices up. This may not always be the case, as stumpage rates are based on the factors above, but also the delivered price to the mill (which is another market in itself).

Product	Mill	Average Stumpage (Cord)	Average Stumpage (GMT)
Hardwood Pulpwood	Woodland Pulp Arauco	20.43	9.79
Softwood Pulpwood	JDI Sussex	10.73	5.14
Softwood Studwood (All Grades)	JDI Chipman JDI Sussex	39.96	19.15
Softwood Sawlogs (All Grades)	JDI Chipman JDI Sussex	49.45	23.70
Poplar	Arbec Forest Products Penobsquis Wood yard	23.12	11.08
