**SNB Marketing Board Average Stumpage Rates**

**February 2026- April 2026**

NOTE: The average stumpage rates below have been calculated from wood sale stumpage transactions through our Marketing Board from February, 2026- April 2026. Direct stumpage transactions (mill pays producer) are unknown, and for this purpose, cannot be included in the calculations.

Please note: Stumpage rates can be influenced by many factors including, but not limited to: harvest prescription, overall volume, quality, piece size, cost for woodlot roads, highway weight restrictions and distance to mill to name a few.

Like other markets, stumpage can also be influenced by competition. The higher number of logging contractors that compete for stumpage, can also drive prices up. This may not always be the case, as stumpage rates are based on the factors above, but also the delivered price to the mill (which is another market in itself).

Product	Mill	Average Stumpage (Cord)	Average Stumpage (GMT)
Hardwood Pulpwood	Arauco Woodland Pulp	19.03	9.12
Softwood Pulpwood	JDI Sussex	9.33	4.78
Softwood Studwood (All Grades)	JDI Chipman JDI Sussex	39.18	20.09
Softwood Sawlogs (All Grades)	JDI Chipman JDI Sussex	46.34	23.76
Poplar	Arbec Forest Products AV Nackawic	15.59	7.47
