

AQUA SMART SERIES

GS CE SASO EAC RoHS PAHS

Constant water supply | Silent design | Intelligent protection

# PERMANENT MAGNET MOTOR

## CONSTANT PRESSURE

The permanent motor is able to adjust its performance in variable speed according to the water demand to provide constant pressure.

## ENERGY SAVING

The pump with a permanent magnet motor to reduce power consumption while the variable speed control matches the power consumption with the required water demand.

**50% MORE EFFICIENT  
THAN CONVENTIONAL MOTOR**
