

WATER FILL IN PLUG

Integrated with non-return valve and tank.

UP TO 95°C HOT WATER

SMART SERIES able to pump hot water up to 95°C

ECO-FRIENDLY MATERIALS

All components are in accordance with the European standards of RoHS & PAHS, no pollution to water. The standards are to restrict the hazardous substances in electrical & electronic equipment & protect human & animal health & the environment.

SILENT DESIGN

Optimized hydraulic structure to minimize the mechanical noise, fan noise, electromagnetic noise and fluid noise.
