

Sectional Garage Doors

we look to offer the finest quality sectional garage doors each one bespoke made to your individual sizes and available in 4 different ranges of models, all our sectional garage doors come with electric motors and Qty 2 remote control handsets as standard, every door is available in the standard white (RAL 9016) or any RAL colour with some available in a wood laminate effect as well.

When designing the doors safety is always paramount as well as style and efficiency with this in mind each door has the following safety features.

Anti-lift Device

If your garage door is operated by an electric motor, it is automatically protected by an anti-lift device. The motor protects your door from being lifted by generating resistance when someone tries to open the door by hand.

Finger Protection

All doors in our product range are fitted with finger guards as standard. These guards are a statutory requirement that prevent your fingers being pinched between the panels when opening and closing the door.

Obstruction Detection

Our electrically operated garage doors are equipped as standard with a force limiter. This ensures that in the event of slight resistance, from for instance your child or car, the door automatically opens.

Spring Break Safety Device

Our doors are fitted as standard with the statutory spring break safety device. This ensures that in unforeseen situations the door does not suddenly close, which could cause damage or unsafe situations.

Options And Accessories

Our garage doors can be fitted with the options or accessories shown below. Of course, all of the options and accessories we offer have been extensively tested for functionality and durability.

1.

We have a range of windows available in either round or rectangular style with black, white or stainless steel trims.

2.

Our external manual override system can be installed to allow the door to be operated from both inside and outside.

3.

Choose the added flexibility of a pedestrian door built into your garage door.

(Not available in the Balmoral)

4.

Choose chrome or black for your handles.

(Manual only, handles are an extra cost)
