CHARTERING BENCHMARKS

PATH TO BECOMING A CHAPTER

To ensure that new chapters continue to thrive once they charter, Alpha Sigma Phi Headquarters has established a list of benchmarks that must be met before the group can submit a petition to charter. Provisional Chapters will be eligible to submit their chartering petition during their 4th semester as a Provisional Chapter.

For example, if a Provisional Chapter was started in Fall 2024, they would be eligible to submit their petition no sooner than Spring 2026. Members are initiated prior to completing the Chartering benchmarks, however.

BROTHERHOOD

The Provisional Chapter has at least one brotherhood event per month during the academic year that is substance free and attended by at least 50% of the members. Please provide a description (date, event, location) and a picture for each.

RECRUITMENT

The Provisional Chapter has shown the ability to recruit and consistently bring New Members into the Provisional Chapter. Provide a list of all recruitment events the Provisional Chapter has held as well as details of the recruitment strategies the Provisional Chapter has utilized.

The Provisional Chapter is at a sustainable size relative to the campus IFC average.

COMMUNITY ENGAGEMENT

Outside of the areas of brotherhood and recruitment, what has the Provisional Chapter done to stay engaged with the campus and local community? List any Service/Philanthropy events the Provisional Chapter has hosted or participated in, personal/professional development workshops the Provisional Chapter has hosted or participated in, or other organizations the Provisional Chapter has supported.
