"Plants: Silent Partners in Life"

Design & Installation

Since 1932, family-owned and operated Conrad Schweizer Nurseries has provided Staten Island, New Jersey and the greater New York area with artistic landscape design services. We offer innovative landscape design concepts for residential and business properties. From start to finish our landscapes and installation team will create and maintain your outdoor living space. For over 92 years Conrad Schweizer Nurseries has served the greater tri-state area. Our services include:

- Landscape design & installation
- Annual plantings & maintenance for the spring, summer & fall for projects that we install.
- Natural field stone walks, steps, and garden pathways.

Our design process consists of a few steps:

1. Stop in the Nursery at your convenience to complete paperwork, and schedule an evening, weekday appointment with Conrad, and pay the consultation fee.
2. **Contact the Nursery, after your initial appointment with Conrad, to schedule your second appointment.** The second appointment will be during the day, over the weekend, and in the nursery to review the design and select plant material.
3. Once the plant material is selected the scope of the proposal can be completed. If the job is accepted the consultation fee is deducted from the final payment.
4. **Please return a signed proposal and completed ST-124, NY Certificate of Capital Improvement and deposit.**

We look forward to working with you and assisting you in creating your own personal retreat.
