COLLECTION 2024

# Path-breaking innovations with a Promise of quality!

Inspired in collection, and unmatched in design; FIIXO, a brand through its novel technology and product introductions, is leading the Ceramic industry to achieve a peerless national and global reputation in becoming a single-stop solution for any space amplification.

Penetrating the industry with an ever-expanding portfolio, FIIXO has now diversified its core strength of Ceramics, and Vitrified tiles into GVT/PVT, Porcelain, Sanitaryware, as well as a range of complete Tiling Solutions.

Reshaping spaces by constantly enhancing surroundings with new possibilities. FIIXO promises the amalgamation of innovation and style, crafting high-end ceramic excellence. It is about taking space to a higher level, making it more appealing and adaptive.

Our focus lies in transcending the ordinary, where every tile, every design, echoes the essence of sophistication and durability. FIIXO stands as a beacon for those seeking not just elegance but an enduring legacy woven into the very fabric of their spaces.

# Company strength and achievements that defines our place in the industry.

 **AMONG TOP 10 CERAMIC BRANDS IN INDIA**

 **14+ SIZES IN 5000+ DESIGNS**

 **PRESENCE IN 60+ COUNTRIES**

 **25 MILLION SQM. MANUFACTURING CAPACITY/ANNUM**

 **THE FIRST COMPANY IN THE CERAMIC INDUSTRY WITH 3-STAR EXPORT HOUSE**

 **1195+ BUSINESS PARTNERS**

 **INVESTMENTS IN RENEWABLE ENERGY**

## Tiles

Flooring the extensions of your dream space, tiles from FIIXO are a great addition to every ambience. With their simplistic elegance and finesse, our tiles introduce modernity and grandeur by manufacturing the best alternatives and replacements to natural surfaces. This collection, thence, is the perfect choice for 'architecting' the spectacular!

## SURFACES

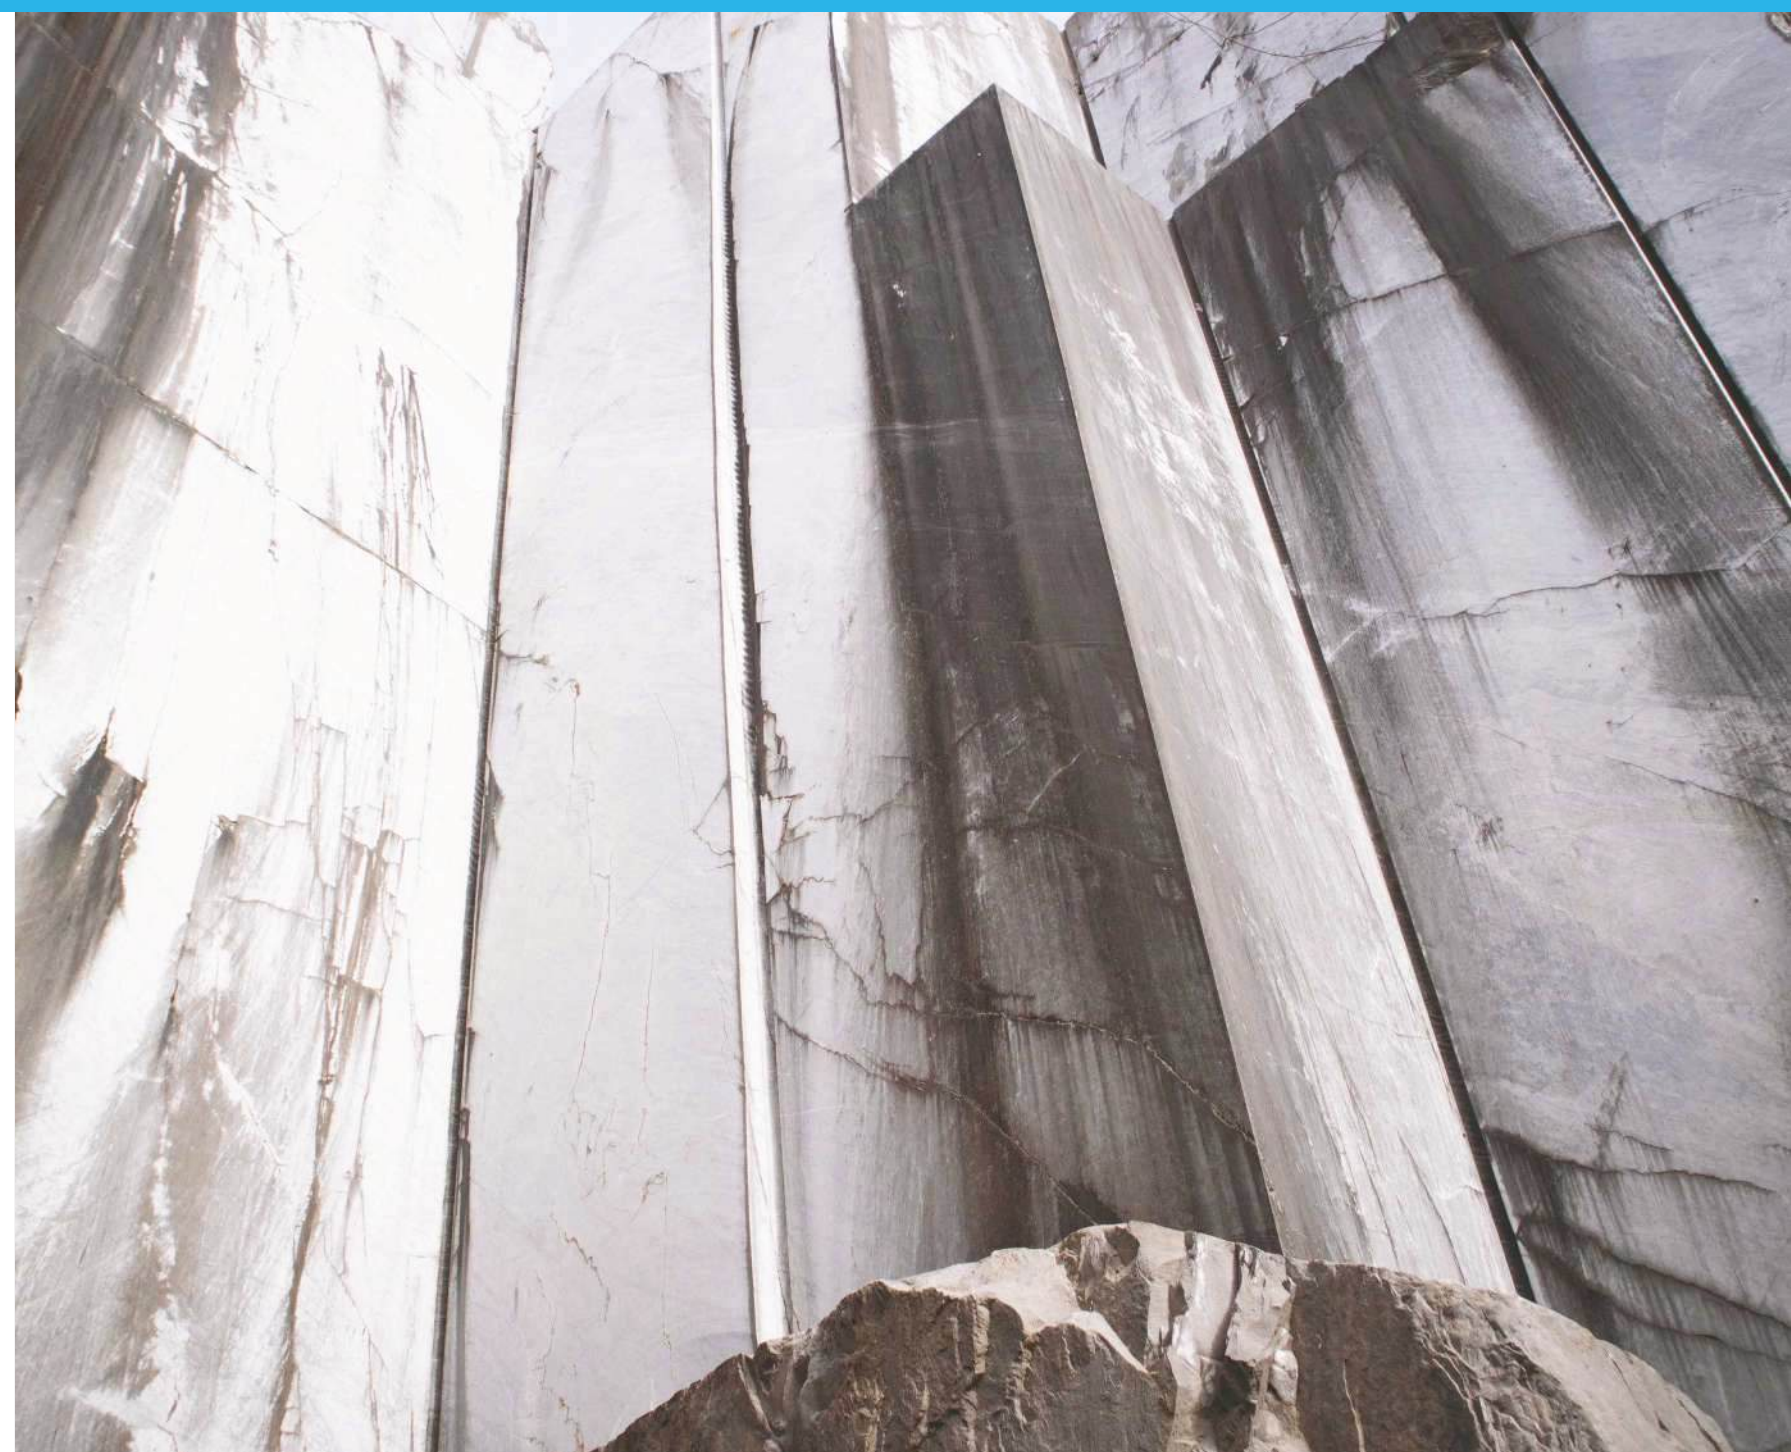

Crafted with ingenuity, designs that speak for themselves, and advanced technology, FILIXO is consistently adorning your spaces with its regal magnificence that personifies strength and sophistication. Available in various sizes, numerous colors, myriad applications, and varied designs, they exhibit a distinctive verve of elegance.

## COMPOSING INSPIRATION

Behold the confluence of exquisite, with elegance; evoking a spirit of discovery, keeping the marble at its core. We create masterpieces inspired by nature and nurtured with sustainable technology that gives your expanses an immense aesthetic impact with versatile designs, hues, and textures.

Reigning the industry by housing a stellar collection, Sunheartt brings exceptional architectural surfaces that enhance your spaces, making them look urban, nature-inspired, and yet unique. These surfaces speak the language of harmony between simplicity and elegance, blending in with your interiors to give your spaces, elegance. Encompassing serenity with nature-inspired designs, bring earthiness with the likeliness of natural marbles, at minimal maintenance.

The luxurious spectrum that goes from imbibing rawness in texture to refinement in finish and designs: complementing features that stimulate an opulent environment!

## NOVEL ADDITION

---

Discover the unmatched strength and subtle aesthetics of the newly reintroduced marble surfaces that flaunt an array of mesmerising designs, colors, and timeless appeal. Manufactured using high-end technology, these marble surfaces are created adhering to the highest standards of quality making them beautiful, robust, and durable. Available in a range of convenient sizes, these visual marvels defy time to become your style statement. These marble tiles boast a design philosophy that aims to reunite individuals with the essential resources of the earth and accurately represent three aspects of nature: ethereal beauty, earthy calmness, and pristine minimalism. This eternal artistry adds a touch of glamour to your surfaces; giving that extra edge to your architecture.

---

### INSPIRATIONAL DESIGNS

Fragments of minerals, combined onto naturally random patterns, inspired by nature to wholesomely work to create amazing designs in impressive colors and unimaginable textures.

### RESILIENT INTEGRANTS

The avant-garde processes enable features such as minimal porosity, chemical resistance, and high tensile strength to resist any form of breakage.

### REMARKABLE DURABILITY

Surfaces with maximum durability with high resistance to excessive wear and tear; suitable for high-traffic environments, while adding infinite elegance to a space.

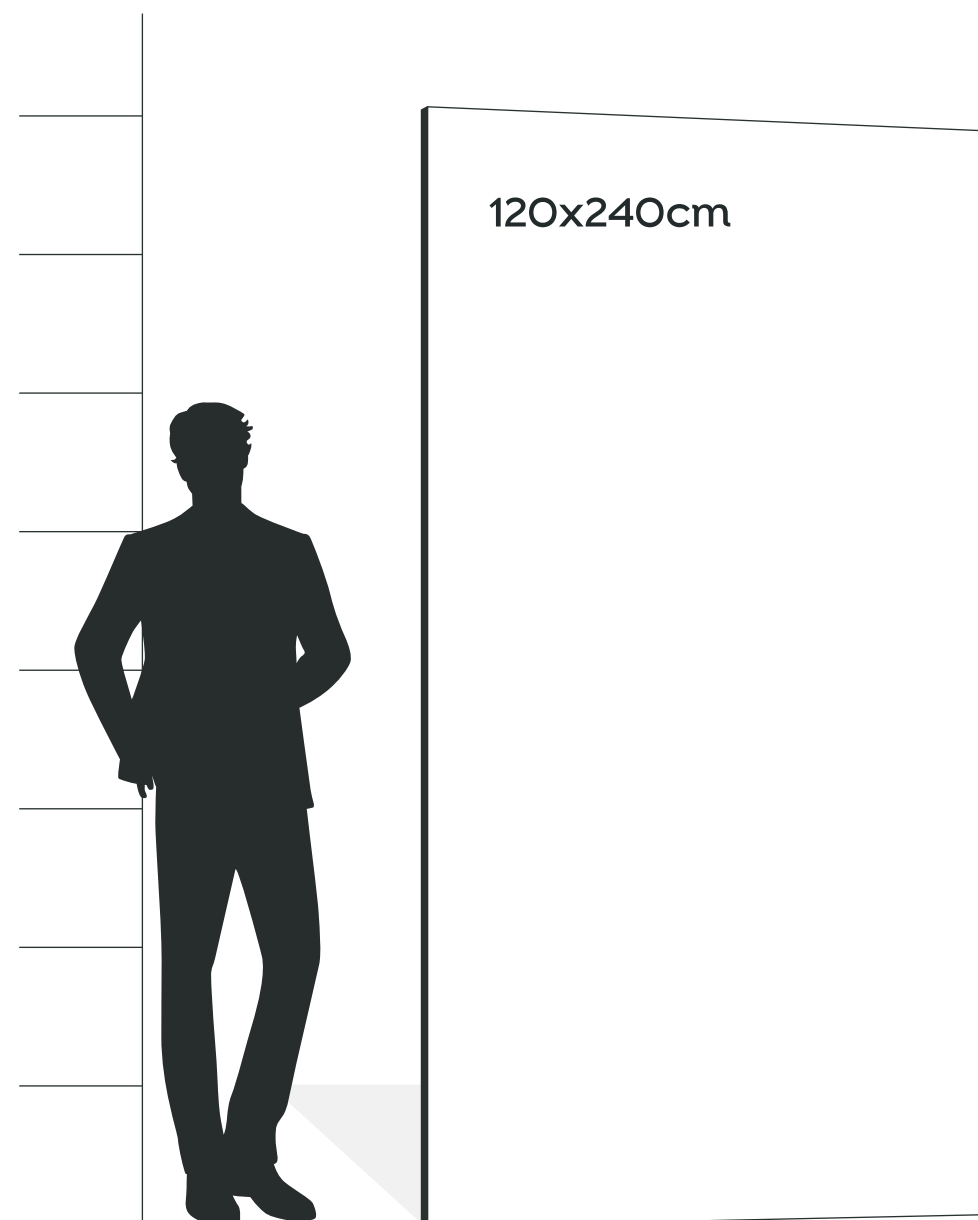

### SUPERIOR TECHNOLOGY

A state-of-the-art technology embarks novel ideas and shapes to be executed in tangible realities; providing an expression in designs of minimal taste.

## SIZE & THICKNESS

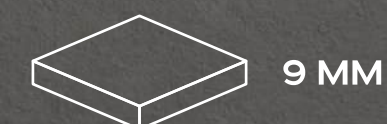

6

FINISHES

6

COLLECTIONS

Inspired by the likeliness of natural marble, the architectural surface offers numerous options. Moreover, understanding the need for resilience and strength, they boast of thickness that makes them extra durable and sturdy and also offer possibilities of various edge profiles, lending an aesthetic grace to the ambiance.

## FINISHES

A perfect amalgamation of beautiful textures and finishing bring a touch of glamour to your space, offering a unique aesthetic expression that exhibits a distinctive verve of elegance and grace with the harmonious symphony of sophisticated tones that vibe with your aesthetic taste. The warm, natural, and earthy tones and a smooth and generous finish contribute to the rustic effect giving the spaces a calming environment to relax and unwind.

# APPLICATIONS

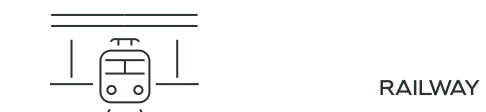

A functionality that impresses, and applicability that expresses, these architectural gems, across a spectrum of environments emulate the coveted mineral, marble, in all its natural likeliness.

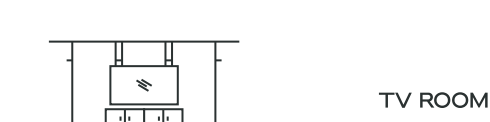

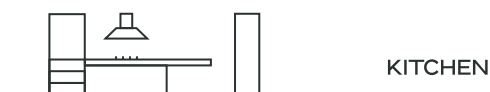

## COMMERCIAL

## PUBLIC

## RESIDENTIAL

Creating masterpieces born from art with flawless craftsmanship and technologies that bring surfaces to life, these marble wonders are assets that are rich in features enhanced by tactile and visual multi-dimensionality. Embracing revolutionary technology with innovative cutting-edge design solutions that add a corresponding outlook to architectural creations, they give a modern-retro luxurious look enhancing your spaces with its dramatic effect while the earthy influence holds the essence of nature in a bold statement. Revolutionise the decor with sheer magnificence that personifies authority and elegance.

Bigger  
Sizes

Large slabs provide a smoother and sleeker finish, mitigating any type of risk for grout lines to show. Moreover, their appearance creates a seamless look and is highly versatile.

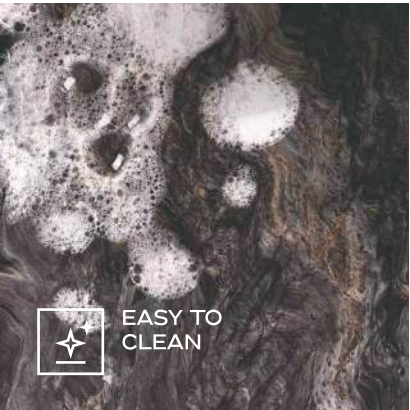

Multiple  
Applications

With versatile usage opportunities - both indoors and outdoors, the collection offers endless potential. So let your imagination push the boundaries of design and watch the magic unfold.

Varied  
Designs

From modern to classic, the surfaces give your space a lovely vibrancy with dynamic hues ranging from energetic to graceful to pastels; all that is there to soothe your spaces.

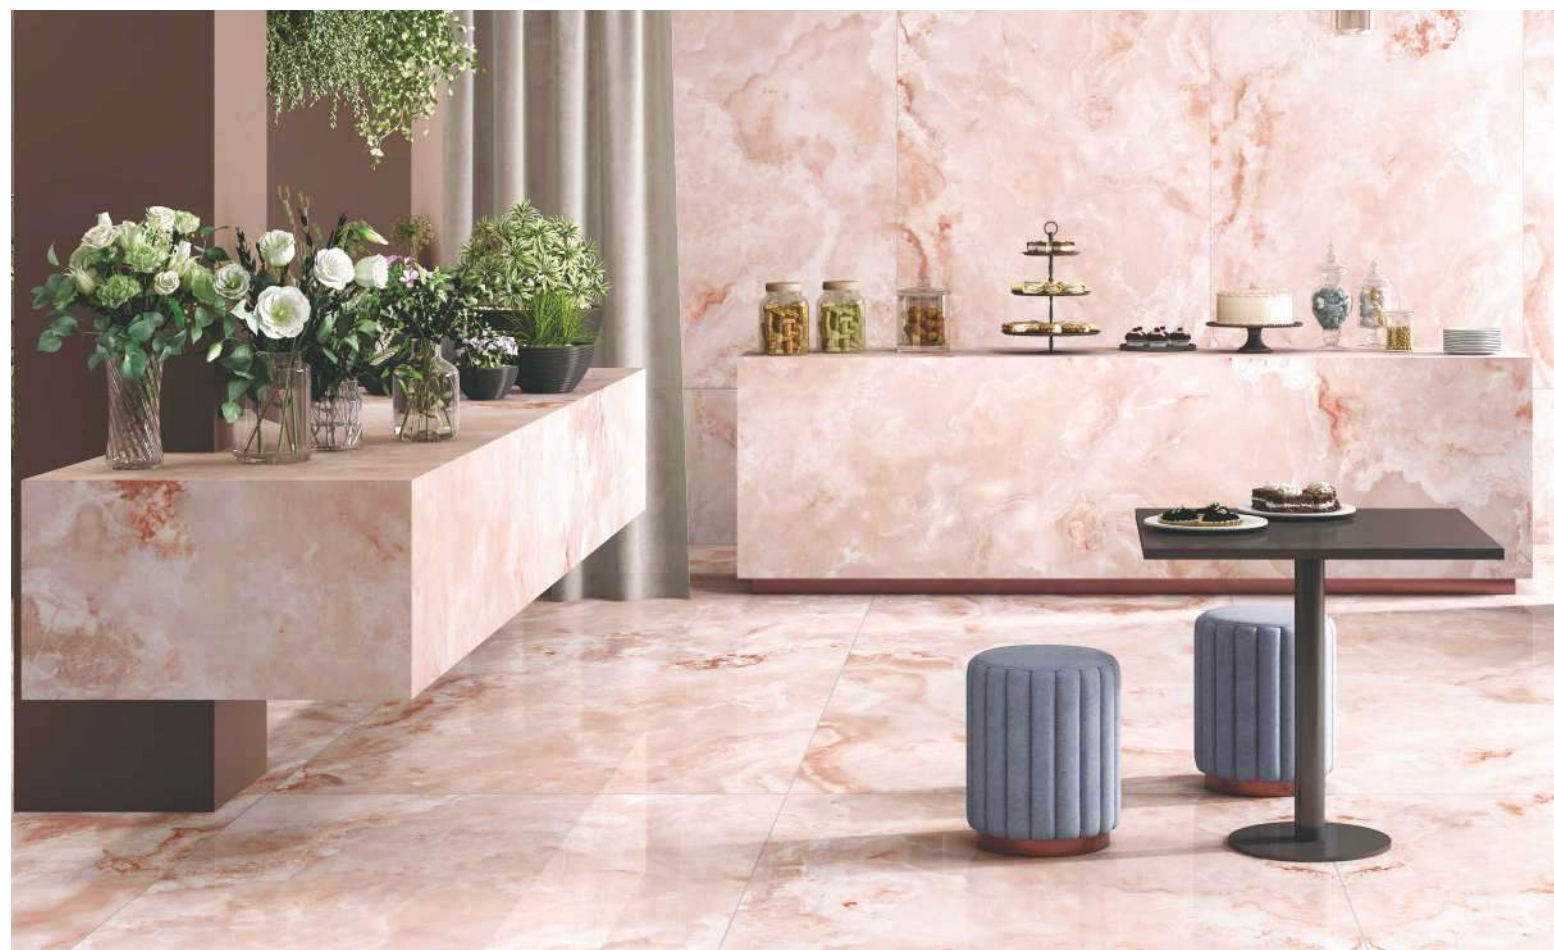

Give your expanse an immense aesthetic impact with the versatile surfaces that mark a spectacular setting dominated by textures and hues of unimaginable beauty remaining strong under pressure to provide solid beauty. Witness a true-to-life manifestation of attractive architectural surfaces designed and crafted meticulously for a consistent and opulent experience!

ADVANTAGES

## USAGE FOR INDOOR SPACES

Take your tile game a notch higher,  
by using these slabs for making  
walk-in closets, fireplaces, flooring,  
wall cladding, stairs, and much more  
- find possibilities and discover the  
impact!

PACKING DETAILS

| SIZE      | PIECES / BOX | COVERAGE AREA / BOX |               | WEIGHT / BOX   |
|-----------|--------------|---------------------|---------------|----------------|
| 120x240cm | 1            | 31.00 sq.ft.        | 2.88 sq.meter | 60 Kg (approx) |

Note: Color shown in catalog may vary with the original tile. Slight shade & size variation is an inherent property of Ceramic / Vitrified tiles.  
For Normal Glossy Class III, High Glossy Class II/Class III, Matt Class III/Class IV.

## TRANSPORT SYSTEM

axi marble is extremely heavy and may have sharp edges. It is therefore necessary to wear protective gloves at all times. We recommended the use of single or double suction cups which help to ensure the integrity of the tile is maintained and the operators' safety is not compromised.

Carefully wipe the surface of the tile to remove any dust or moisture, position the suction cups on the face of the tile and make sure that they adhere to the surface properly.

For safe handling of large format slabs on-site we highly recommend the use of a specialist tile handling frame with suction cup for larger formats the full frame with four suction cups is suitable, with smaller formats two double suction cups are sufficient.

## FIXING SYSTEM

The growth in popularity of large format tiles, with their increased weight and smoother backs, presents new fixing challenges to the professional tiler.

Correct preparation of the subfloor or laying surface is crucial. The laying surface should be rigid, non-flexing and capable of supporting the expected load with minimal or no deflection. A level subfloor is extremely important in order to keep tiles from cracking. Sanding high spots and the use of a levelling compound on low spots is essential. It is also important that your tiles are clean and dry, if necessary wash them with clean water and dry them thoroughly before fixing.

Whatever your specific requirements, whether they be for standard or large format slabs within internal or external applications, selecting the appropriate cement-based, fibre-reinforced or ready-mixed adhesive is vital to ensuring the success of your project.

Once your subfloor is clean and dry, spread the adhesive on the surface to be covered with a 10x10mm square toothed trowel, covering an area 5-10cm more than the size of the tile. Always apply the adhesive in stripes running parallel with the short edge to remove air pockets and bubbles. By using this method, full coverage of the tile with adhesive is ensured.

## HAND CUTTING SYSTEM

### CUTTING

axi marble require high quality diamond blades for cutting; if hiring cutting equipment please ensure this is provided with the appropriate blades. Always cut and fabricate with wet diamond tools and take appropriate measures to provide efficient ventilation in the work area. Always wear approved eye, boot & hand protection when fabricating porcelain.

### LINEAR CUTS

For most cuts we recommend the use of a wet saw machine. These are available for cutting lengths of 100 mm up to 2200 mm. The Raimondi Bolt range of bridge wet saw machines are available in various lengths.

For linear cuts of 1500 - 3000 mm we recommend the use of a cutting guide with cutting carriage.

Always use a handling frame with suction cups where necessary. The Raimondi FREE-CUT Cutting System is available for lengths up to 4000 mm.

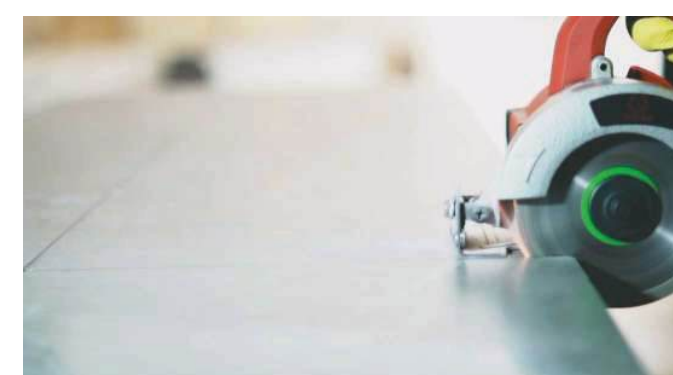

## CUTTING GUIDE WITH CUTTING CARRIAGE

Mark the portion to be removed at the ends of the tile with a pencil. Position the cutting guide with cutting carriage so that the references on the guide coincide with the lines marked on the panel.

Lock the cutting guide with the cutting carriage in place

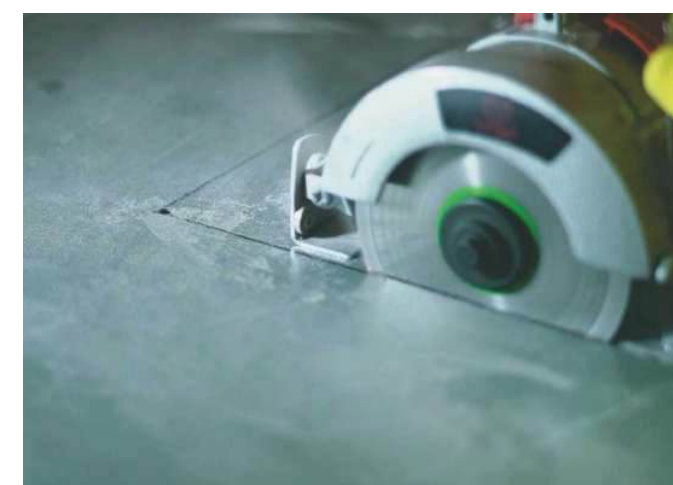

using the suction cups. To guarantee correct scoring, the pressure and movement of the cutting carriage must be constant along the whole length of the cut. Score one end of the panel by 15cm pushing the cutting carriage towards the edge of the panel. Complete the scoring up to the opposite end of the panel.

Using the cutting guide, move the panel until scoring line protrudes 5-10cm from work surface.

Release the cutting guide from suction cups and move towards the middle of the panel. Start cutting off process by positioning cutting-off pliers in line with the line scored on the panel. Exert progressive pressure until you notice that cutting off process has begun. Go to the opposite end and position cutting-off pliers in line with line scored on the panel. Exert progressive pressure until you notice the cutting off process has begun. To complete the cutting off process, one or more operators must grip the portion to be removed and exert progressive pressure.

Sharp or rough edges should be smoothed and finished with a diamond buffer or sanding pad.
