**Objets**, a wholesale furniture showroom, relocated a half-mile away from its original location at 7301 Burnet Road, Austin, after nearly 23 years. A grand opening party will happen Oct. 26.

Objets caters to professionals such as residential and commercial designers, architects and building project specifiers.

The new 7,000-square-foot space on Burnet Lane is housed in the former 1950s Western Floors warehouse and **offers a variety of furniture, lighting and accessories**.

Owner Sandy Sieracki said it is a family business as her mother, Judith Harris, was a designer, and her daughter, Kinsey, has joined the Objets team.

"Walking into a building that has so much natural light, high ceilings and listening to great music is good for my soul," Sieracki said in a news release issued Sept. 19. "Designers have been coming in and staying for hours because they're feeling the same vibe. That makes me happy."

- Opening Oct. 26
- 6513 Burnet Lane, Austin
