

CBD CLINIC™

Professional Care. Powerful Relief.™

Everything You Need To Know

In Less Than 7 Minutes

Why incorporate CBD CLINIC™ into your practice?

DELIVERS FAST RELIEF

Patients feel the benefits of these products quickly.

GENERATES ADDED REVENUE FOR YOUR BUSINESS

The products can be purchased after treatment or added on to a treatment/service for an additional fee.

PROVIDES A HIGH-QUALITY PRODUCT

You can offer patients a trusted source, reliable brand, and quality product for CBD topicals.

INTEGRATES EASILY

The products are simple to incorporate into treatments, which makes your services more unique and beneficial.

CREATES CURIOSITY

Patients are curious about CBD and are inclined to purchase it from their trusted health care practitioners.

The Healthcare Practitioners CBD Brand

Backed by 15 years of Pharmaceutical Experience

Contains less than 0.3% THC, is non-psychoactive, and will not cause anyone to fail a THC drug test.

2018 Farm Bill Compliant

Over 15,000 professionals are already using our products

Sold in all 50 states

How Does CBD CLINIC Work

- Our proprietary formulations contain powerful naturally-derived active pharmaceutical ingredients (APIs) including menthol and camphor, which penetrate deeply into the skin for muscle and joint pain relief.
- We blend these APIs with natural emollients such as CBD rich broad-spectrum distillate, jojoba seed oil, shea butter, and more.
- The additional terpenes such as eucalyptus, clove and peppermint enhance the cooling effect for the feeling of lasting relief.

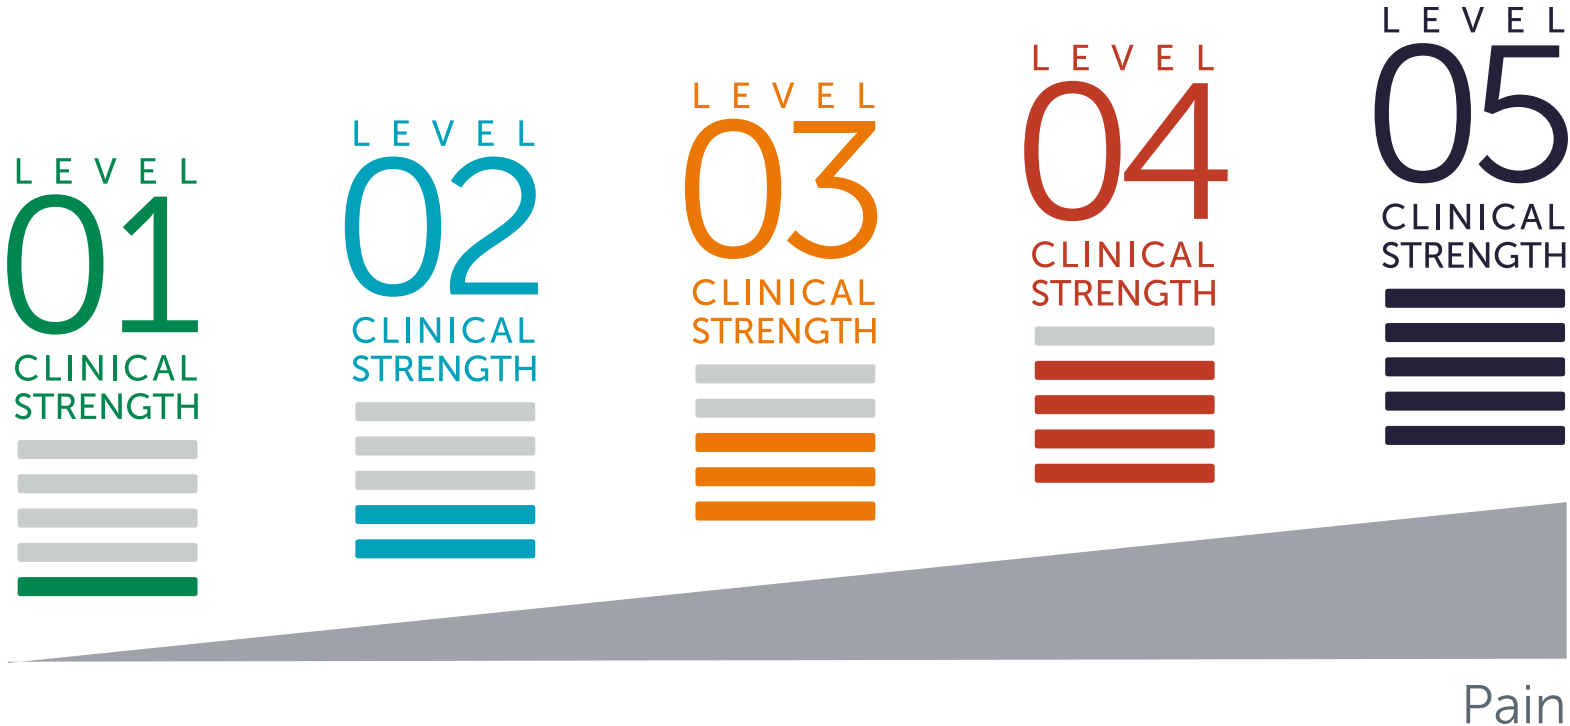

Professional Clinical Strength Series

Developed for the Healthcare Provider

The 5-level system allows you to recommend the appropriate formulation for the matching symptoms.

Making CBD CLINIC the perfect complementary product to any pain management plan, during treatment and at home.

Why Professionals Trust CBD CLINIC

EXPERIENCE

- Our products are developed, formulated & manufactured on the foundation of 15 years of pharmaceutical experience specializing in naturally-derived products.
- We are the first family of OTC topical medications that combine active pharmaceutical ingredients, essential oils, CBD hemp oil or extract, & other natural emollients.

QUALITY ASSURANCE

- Our products are formulated in a cGMP audited manufacturing facility.
- We source only the finest naturally-derived ingredients for our products.
- Our formulations are made in compliance with federal guidelines according to the authorized monograph for OTC analgesics.

SAFETY

- CBD CLINIC's products are third party tested.
- Our CBD hemp oil is non-psychoactive, non-addictive, & will not cause patients of the product to fail a THC drug test.
