Editors Note:

- Why I created the magazine (personal)
- Content Preview (based on Smile's Editor, Objective)
- Personal
 - Art is an underrated career (not enough appreciation to field as oppose to STEM)
 - More important now w/ a world reliant on AI over humans
 - Encourage a new generation of artists to keep this visual, storytelling tradition alive
 - b/c Capstone is exclusively Horus content, I thought it would be a fun way to collage everything I learned about art and Graphic Design over my $3\frac{1}{2}$ years at East Bay $\rightarrow$ simplified for youth

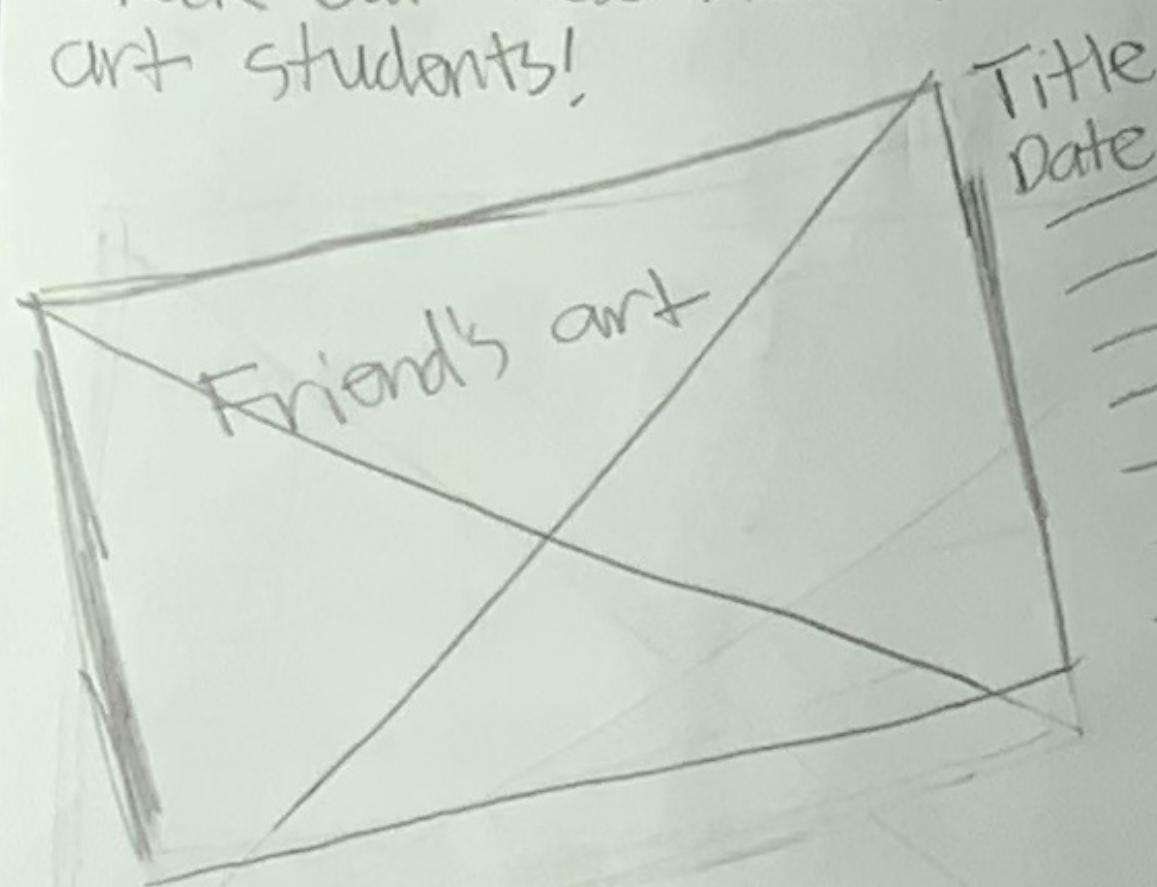

Another Coloring Page - Because I want the Mini Museum to spread across 2 Pages for Max viewing, so here's another filler Page

+ May spread Mini Museum to 4 b/c text is probably at least 12pt for minimum legibility
