ABOUT THE ARTISTS

CREATIVE INTEREST—Floral arrangements, painting with acrylics, watercolor, drawing, photography, jewelry, crafting

Growing up on a farm, I always loved all the flowers in the field and around the house. We also always had interesting things in the barns and I think this background is a large part of why I love using old things and giving them new life, often including florals. I also love being surrounded in my store, *Bar-B Mercantile*, with all the pretty flowers and doing arrangements. I enjoy painting, drawing, sewing, and photography and many other forms of creating as well.

PHOTO GALLERY

I do everything from a simple vased arrangement to weddings. I will attempt almost anything or direct you to someone I know who could do what is wanted. I know a lot of artisans through MMA and from my craft show vendor list from the shows I host.
