Why I Recommend Mid-Missouri Artists

I joined MMA for the opportunity to exhibit my photos in various venues not otherwise available and to receive honest critiques of my work.

Over the years I've become more deeply involved; it has provided me an opportunity to help promote our art community.

- Artwork is for sale

Bill Wayne Warrensburg, MO ABOUT THE ARTISTS

CREATIVE INTEREST—Photography, primarily travel & landscapes

As a photographer and traveler, I look for opportunities to take both artistic and documentary/story telling photos. Initially, I just wanted to document my memories, but after a failed photo of an Isle Royale moose, I switched from an Instamatic to a 35mm SLR in 1974 for a Yellowstone trip. My wife-to-be, Sandra, bought her own SLR, and the race was on.

Over the years, travels took us (and our cameras) to all 48 contiguous states and 4 Canadian provinces. We took thousands of slides but switched to print after joining Mid-Missouri Artists. I moved to digital in 2002.

I lost Sandra in 2020 – she'd have wanted me to continue to take & display lots of photos. I resumed traveling in 2021 & writing our photo-enhanced travel blog <https://modaytrips.blogspot.com/>.

PHOTO GALLERY
