

More than a move. A lifestyle shift.

I help families, professionals, investors, and newcomers discover the lifestyle, communities, and opportunities that Vancouver Island has to offer.

Live where others go on vacation

Vancouver Island is not just a place to live. It's the decision to slow down, breathe deeper, and build a life that truly feels like your own.

Lifestyle between ocean and mountains

Wake up with an ocean view. Hike through ancient forests. The wilderness here is your backyard.

Family-oriented living

Safer streets, strong schools, and tightly knit communities. Life on the island is made for families who want to live intentionally.

Freedom to work from anywhere

More and more professionals are choosing Vancouver Island. Work from anywhere and live in an extraordinary place.

Mild climate all year round

Canada's mildest winter climate. Less snow, more green. More time outdoors and less time shoveling snow.

What your new everyday life looks like

From surf spots at dawn to farmers' markets on Sunday mornings, island life is fuller, richer, and wonderfully more relaxed.

Hiking and trails

Hundreds of hiking trails for every level, from coastal cliffs to alpine peaks.

Surfing and stand-up paddling

The legendary waves of Tofino. Calm paddling trips on lakes. Water is always close by.

Farmers' markets

Local, seasonal, and unhurried. This is where the community comes together every weekend.

Breweries and coffee culture

Craft breweries, independent roasters, and cozy cafés on every corner.

Entrepreneurship

A growing hub for creatives, investors, and bold small business owners.

Nature around every corner

Less stress. More balance. The landscape here gives you new energy all on its own.

From Anywhere to Vancouver Island

Families, professionals, retirees, and remote workers discover that Vancouver Island offers the things that matter most to them: a strong connection to nature, a high quality of life, a welcoming community, and a healthy work-life balance.

Life here feels grounded and refreshing. The rhythm is slower, the surroundings are beautiful, and the island offers a lifestyle that helps people feel more connected, relaxed, and at home.

Canada's welcoming culture, safety, access to nature, and strong education system make the island a natural choice for anyone ready for a new chapter.

✔ **Personalized guidance for every step.**

Anja Rhomberg offers lifestyle-focused support to help you move to Vancouver Island with confidence, clarity, and care.

Why people love island life

- Nature-oriented lifestyle and outdoor living
- Strong sense of safety and community spirit
- Excellent work-life balance
- Appreciation for quality, local food, and craftsmanship
- Friendly, open Canadian culture
- Welcoming pathways for newcomers

Find Your Perfect Community

Vancouver Island is not just a place, but a collection of unique, beautiful communities. Each has its own rhythm, its own personality, and its own lifestyle.

Nanaimo

Comfort meets nature. The island's urban hub with ferries, shopping, hospitals, and harbor walks all in one place. Ideal for families and buyers purchasing their first home on the island.

Parksville

Canada's warmest ocean temperatures. A popular family town with spectacular beaches and a relaxed coastal rhythm. Perfect for retirees and young families alike.

Qualicum Beach

Small-town coastal charm. Elegant, quiet, and easy to explore on foot. A favorite of retirees, artists, and anyone seeking a polished island lifestyle at a gentler price point.

Victoria

Culture, elegance, and natural beauty. The island's capital with top-tier dining, galleries, and bike paths, while the Pacific is always in view.

Tofino

West Coast dream living. Wild beaches, world-class surf spots, and untamed beauty. For those who want to feel alive every day.

Is Vancouver Island Right for You?

Life on the island is exceptional and, at the same time, honest. Here you'll find a clear look at what to expect and what to consider before taking the leap.

✓ You'll love it here if ...

- You value balance over hustle and bustle
- You love nature and outdoor living
- A stronger sense of community matters to you
- You work from home or run your own business
- You want to trade traffic for trails
- You want to raise a family thoughtfully
- You want to retire somewhere that is truly beautiful

⚡ What you should consider

- Ferry trips to the mainland are part of island life
- Rain is real, and so is the lush green it creates
- Smaller towns mean fewer amenities than in a big city
- Access to healthcare varies by region
- The slower pace can take some getting used to at first
- A lively nightlife scene is not part of the island style

📄 Most people who move here say the adjustment takes 90 days. After that, they can't imagine living anywhere else.

WORK LIFE BALANCE

Less Commuting. More Living.

The island doesn't just give you a new address. It gives you your time back.

Mental Wellbeing

Life in the middle of nature reduces stress. Science says so, and everyone who has moved here confirms it.

Family Time

Shorter commutes to work. Safer streets. More evenings together with what really matters.

Suitable for Remote Work

Fast internet, co-working spaces, and a landscape that inspires deep work.

Healthier Living

Fresh air, regional food, and active recreation outdoors are a natural part of everyday life.

MEET YOUR ADVISOR

Anja Rhomberg

REALTOR® | Real Broker

Originally from Germany, Anja brings a deep personal understanding of what it means to start fresh in an extraordinary place.

She is a real estate investor herself and has experience with short-term rentals, medium-term rentals, and long-term rental strategies on Vancouver Island.

Her approach is honest, direct, and always lifestyle-oriented. She helps people not just buy a home. She helps them build the life they have always imagined.

🇩🇪 German support is available to all customers and families who are relocating.

Thinking about Vancouver Island?

Whether you're moving, investing, downsizing, or simply exploring the idea of life on Vancouver Island, I'd be happy to help you understand what life here could look like for you.
