

September 2025

Greetings from Mayor Carolyn Parrish

On behalf of Members of Council and the City of Mississauga, I extend warm greetings to Reach the Un-reached for your incredible community event "Women Empowerment and Preventative Health".

Your evening celebration is an inspiration.

By offering the people of Mississauga a wide range of services – you have provided people with hope and purpose. These services have included providing shelter, food, clothing, medical care, job training, counseling, and educational programs.

Beyond the practical assistance and guidance, you provide – you also touch souls. You give people hope and an even sharper sense of purpose.

The City commends your dedicated team of leaders, volunteers, and community partners.

Earlier this year your Women Empowerment Gala highlighted an incredibly accomplished roster of women recognized for their profound and immeasurable contributions to their immediate communities, to the City of Mississauga, and to wider society.

They are impressive. They set a prime example. And they exhibit the caring and attention so crucial to the growth of Mississauga and to the families who call our city home.

The achievements of so many special women from our community serves as a rallying point which helps to continue the momentum of women who impact - and improve - our City.

Sincerely,

Carolyn Parrish
Mayor, City of Mississauga
