**To Reach the Un-Reached and all participants of the Women Empowerment and Preventative Health event.**

It is my pleasure to extend greetings to *Reach the Un-Reached* and to all participants of the **Women Empowerment and Preventative Health** event.

This initiative is a valuable opportunity to celebrate the strength, resilience, and leadership of women in our community, while also promoting education, awareness, and preventative health. By empowering women, we uplift families, strengthen communities, and contribute to a healthier and more inclusive society.

I commend *Reach the Un-Reached* for your dedication to creating meaningful spaces for dialogue, engagement, and inspiration. May this event and the *Women Empowerment Magazine* continue to inspire positive change and serve as a source of encouragement for generations to come.

With best wishes for a successful and impactful gathering,

Sincerely,

A handwritten signature in blue ink, appearing to read "Nina Tangri".
