## BOOK SYNOPSIS - LONG

David, a young boy, who struggles to keep his life on track, often blames it on his family circumstances. He is born in a rather poor family and holds his family background somehow responsible for everything wrong in life. This attitude of his provides him with an easy escape from his problems. Holding his innate circumstances responsible for every problem, David gradually develops a negative mindset that tends to make him believe that he is not responsible for the wrath that comes his way. He fails to hold his actions accountable for the consequences and is contented with putting everything on the destiny. This never lets him come out of his skin and do big. His life is marked with anger, despair and disgust, indicating the 'negative-monster' he has transformed into.

With all this going, David meets an accident that changes the course of his life for good. He is hospitalized, and this provides him with an opportunity to be in solace. It is one of the very few times in his life, when he has been alone and this solitude proves to be groundbreaking in his life. All alone, he delves into his subconscious mind and unleashes a life beyond, what he has always presumed it to be.

Get your own copy now and discover how an accident proved to be a blessing in disguise for David, as he sets out to learn the greater meaning of life through a journey of self-acquaintance that takes him to deeper layers of his subconscious mind and introduces him to unheard facets of life. Read and see how David responds to the mind boggling novelty of his subconscious mind, which is equally enlightening. Explore how he takes the roads to self-enlightenment and makes it through curiosity and ambiguity?

*"My book is ideal for any individual focused on self-help, especially the novice. I would describe Mind to Mind as the 'fuel to get the briquette going on the barbecue.' Once you get started, you will not stop, and your destination will show you the proper path."*
