September 2019

2019 FALL FLYER

THANK YOU, from all of us at Al-Par Peat Company for an outstanding 2018-2019 season! It was an incredible year and this is because of all the successful clients that place their trust in our products and service. Going forward, we have made some significant investments in our company to better your experience. This includes new equipment for production and deliveries, increasing our inventory on all levels of products and adding new suppliers to customers' demands, including **Sun-gro Horticulture**.

Thank you for a great year, we look forward to helping you obtain an even better 2019-2020 season!

20% Coco Crunch Coir, Dolomitic Limestone, Calcitic Limestone

At Berger, we pride ourselves on our ability to manufacture high-quality growing media by creating a uniform and strong root environment – season to season, year after year.

This fine grade substrate line ensures a perfect contact with the seed or stem and maintains optimal moisture for uniform germination and rapid rooting.

Aggregate free, this series is made exclusively from natural fibers. Thanks to the careful handling of our peat moss and the use of innovative alternative materials to create a stabilized root environment.

This classic peat-perlite series of all-purpose mixes offers an assortment of drainage options that are adapted for a wide variety of growing environments, making it one of our most popular products.

Lambert Soils... At the root of your success since 1928.

LM-3 All Purpose Mix

Lambert LM-3 All Purpose Mix is formulated from a blend of coarse Canadian sphagnum peat moss, coarse perlite and medium vermiculite. This substrate is an excellent general or all purpose media. *A Lambert Classic Mix!*

LM-8 Bark Mix

Lambert LM-8 Bark Mix is a blend of Canadian sphagnum peat moss with aged bark and perlite. This mix is great for use in large containers, perennials, hardy mums and nursery crops. This bark media is ideal for growers who wish to have a media that provides weight for container grown crops that tend to be top-heavy.

We are happy to announce the addition of

SunGro[®]

HORTICULTURE

We are now distributing SunGro Soils in Michigan, Indiana, Illinois, and Ohio. Please let us know if you would like to see some samples, or get some pricing, and we can start working that out with you right now.

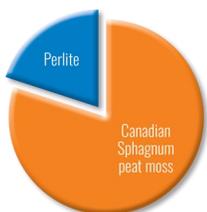

If you are wondering where to get SunGro Soils, look no further. We can not only help you with your soil needs, but we can also ship your other supplies on the same truck, and save you on freight at the same time!

Right now is the perfect time to hop on board. Book your soils now, and save with early order discounts!

PerFect Amendment

PA is a soil additive with a high concentration of patented beneficial Streptomyces on an iron and humic acid carrier that when added to the soil produces healthier plants that more effectively resist stress and may reduce/eliminate the need for chemical fungicides.

- Contains a Patented Beneficial Streptomyces that enhances root development
- Contains slow release complex iron & humic acid
- Promotes plant vigor & strength
- Long term greening.

* Available in 50# bags and 2000# totes.

*Also, can be added to custom mixed soils.

Use PerFect Amendment on all of your plants
