

Dear Investors,

We are delighted to announce that our research and development project, "Integrated Marketing Service System based on Blockchain Technology," has obtained a patent certificate from the Republic of China, with the patent number M638391.

This is a blockchain-based integrated marketing service system that effectively addresses many of the issues present in traditional marketing methods. Our system combines encrypted wallets and implements a web3.0 smart platform, providing members with a more secure, convenient, and transparent service experience while creating value for reading behaviors.

We appreciate your recognition and support for our new media platform. We sincerely invite you to join our Seed Round fundraising program and become a partner in establishing a decentralized new media platform and driving the innovative Read 2 Earn project.

Our goal is to develop TaiwanNews.com into a decentralized new media platform that utilizes blockchain smart contracts to market Taiwan's economic achievements to the world through WEB3.0. Through the Read 2 Earn patent project, we aim to transform reading into a valuable activity and provide investors and member users with a wealth growth formula.

We believe this will be a unique and valuable investment opportunity, allowing us to collectively create a promising future.

Investors will have the opportunity to receive governance tokens, MITC TOKEN, and media platform tokens, TWNC TOKEN, issued by our new media platform. MITC TOKEN allows participation in future community governance (DAO) proposals, voting activities, and the opportunity to contribute to the decision-making and development of the new media platform.

It is worth noting that the governance token, MITC TOKEN, has a total supply of 21 million, and the media platform token, TWNC TOKEN, has a total supply of 210 million. Both tokens are deflationary and will not be minted further.

Below is our fundraising plan, and you can choose to participate:

Seed Round Fundraising Plan:

Participation amount: NT\$300,000 (or the equivalent value in USDT). You will receive the following tokens issued by our new media platform:

- Governance Token: MITC TOKEN 33,000 tokens
- Media Platform Token: TWNC TOKEN 33,000 tokens

If you sign the fundraising agreement, and hold the governance token, MITC TOKEN, without trading for one year, you will be eligible to receive 30,000 shares of the registered company's stock of the new media platform after the one-year holding period. The face value of each share is NT\$10, granting you shareholder rights.

Additionally, "Not Your Keys, Not Your Crypto." To protect your valuable crypto assets, we will provide a bonus gift of one Coolwallet PRO cold wallet, valued at USD\$149.00.

Your support will contribute to the realization of the Read 2 Earn patent project and make reading behavior valuable.

Sincerely,

TaiwanNews.Com & read2earn Team
