# Precision Plumbing Products

*"Specify with Confidence - Install with Pride"®*

## COMMERCIAL WATER HAMMER ARRESTORS

The SWEAT-ON or THREADED series arrestors are the most efficient, effective, and economical arrestors on the market.

PPP prides itself in providing the highest quality mechanical arrestors since 1965. Our product design was the first to be installed in both commercial and industrial applications, and we remain the preferred arrestor in today's market place.

**ASSE 1010 or PDI-WH 201. NSF-61, NSF-372.**

Arrestor sizes are available in 1/2" through 2" with a variety of connection points sized: 1/2", 3/4" and 1" diameter.

**SYSTEM RATED  
PLUS**

**SYSTEM RATED  
THREADED CONNECTION**

**PDI-WH 201, NSF-61 (safe water drinking), NSF-372 (lead free).**

**STAINLESS STEEL  
BELLOWS**

## RESIDENTIAL WATER HAMMER ARRESTORS

The MINI-MAX water hammer arrestors provide the home owner protection from destructive water hammer caused by solenoid operated appliances commonly found in the home.

PPP provides many different configurations of shock arrestors for easy application and long lasting performance.

**PDI-WH 201, NSF-61 (safe water drinking), NSF-372 (lead free).**

## PRESSURE ACTIVATED FLOOR DRAIN TRAP PRIMERS

LEAD FREE

PPP provides 78 models of trap seal primers for the specifying engineer. These models range from our ever popular PRESSURE DROP series, FLOW ACTIVATED series, to the revolutionary ELECTRONIC PRIMING MANIFOLD which will supply a fresh potable cold water prime to as many as thirty floor drains from one location. Electronic trap priming should be considered anywhere adequate pressure drop can not be achieved, such as in some institutional and commercial applications or in non-occupied buildings.

**Adjustable!**

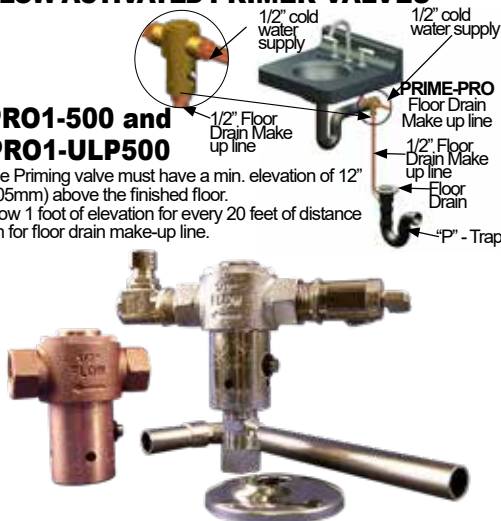

### MODEL P1 AND P2™ TRAP PRIMER VALVE NSF 372

### FLOW ACTIVATED PRIMER VALVES

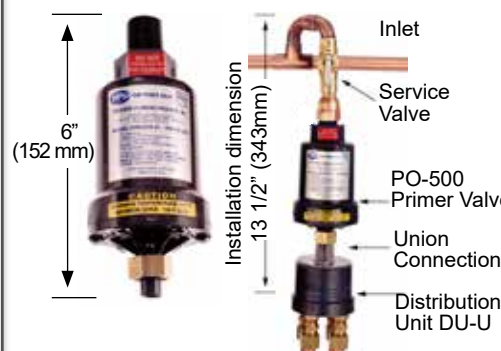

#### PRO1-500 and PRO1-ULP500

The Priming valve must have a min. elevation of 12" (305mm) above the finished floor. Allow 1 foot of elevation for every 20 feet of distance run for floor drain make-up line.

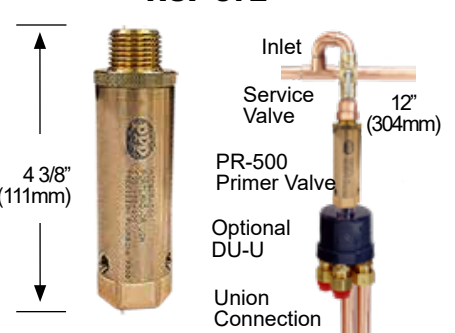

**NO Adjustment Required!**

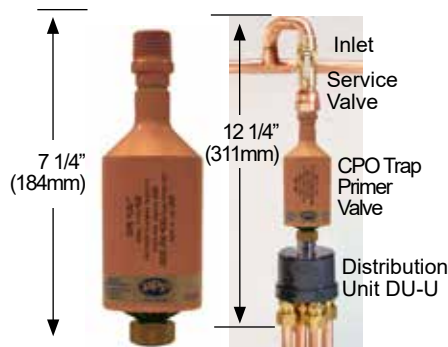

### OREGON #1™ TRAP PRIMER VALVE

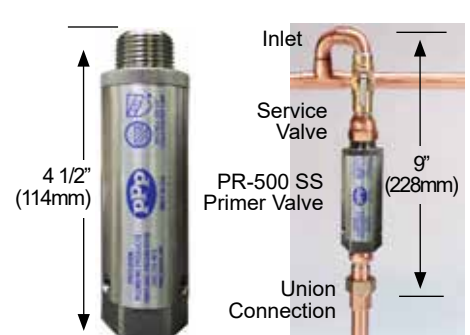

### PRIME-RITE™ TRAP PRIMER VALVE NSF 372

### DUALFLOW™ TRAP PRIMER VALVE

### PRIME-RITE™ STAINLESS STEEL TRAP PRIMER VALVE

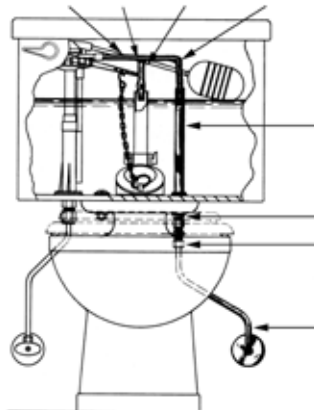

## MANUALLY ACTIVATED FLUSH VALVE PRIMER

## CLEARFLOW (DIELECTRIC FITTINGS)

NSF-61 IAPMO PS 66.

ClearFlow fittings protect your plumbing system through an exclusive steel-to-plastic design that establishes an effective dielectric waterway. The ClearFlow line of dielectric fittings separates dissimilar metals in the electrolyte (waterway) eliminating the local galvanic cell. In addition, ClearFlow's metal-to-metal joint design maintains external electrical continuity, thereby preventing stray current corrosion. This feature becomes critical when stray current is present due to intentional or non-intentional grounding of direct current (DC) sources, e.g. phone systems and appliances.

ClearFlow fittings are designed to meet the requirements of ASTM standard F1545 for continuous use at temperatures up to +225°F (- +5°F) and for pressures up to 300psi, and will achieve a dielectric waterway in all potable water and appropriate HVAC applications. ClearFlow is listed by IAPMO/UPC and SBCCI PST & ESI.

## PRECISION PRIMING ADAPTOR

IAPMO PS 76-2012A

### ABS or PVC Tapped P-Trap Adapter

The PPA Adapter will cement inside a standard P-trap and is available in 2", 3" and 4" sizes.

A 1/2" or 5/8" brass compression fitting or 5/8" PTC (push to connect) or 3/8" NPT fitting is provided with each adapter for the attachment to a drain trap water make-up line.

It provides a 360° adjustment prior to cementing in place. It meets ASTM D-2661 or ASTM D-2665 Standards. ABS and PVC materials schedule #40 DWV.

## BAC-2-BAC MANIFOLD FITTINGS

Designed to distribute hot and cold water to lavatories, sinks, showers, and tubs where fixtures are mounted back to back on a partition.

The Model 2 comes assembled or unassembled, with or without cross-over tubes in a wide variety of opening configurations to fit most piping jobs in either copper sweat, threaded pipe, or a combination of both. The Bac-2-Bac fits in a standard 4" wall with a 2" stack and may be ordered in sizes 1/2", 3/4", or 1" riser dimensions.

All units are pressure tested prior to shipment.

## **MORE REASONS WHY YOU SHOULD BUY PRECISION PLUMBING PRODUCTS!**

### **Precision Plumbing Products Strives for Market Leadership in Product Quality and On Time Delivery**

Precision Plumbing Products, located in Portland, Oregon continues a long tradition of growth through product expansion, customer loyalty and a long-standing partnership with our manufacturing representatives.

It has been our policy through decades of providing plumbing specialty products, to control the manufacturing and assembly processes, therefore insuring our customer will receive the best quality possible. Precision Plumbing has successfully expanded its market share through maintaining consistency in product quality, marketing policy and on-time delivery.

Our employees are among the most well trained in the industry of manufacturing and assembly of plumbing specialty products. We feel that our employees are our number one asset and we provide them with the highest quality in health care and retirement planning our business plan can offer.

Precision Plumbing's manufacturing representatives play a prominent role in the success of this company. Over the years we have always focused on the special relationships we have with our individual representative organizations. The exchange of information is extremely important to the development and eventual launch of any new product or the improvement of existing ones.

We have always maintained a strong relationship with our Plumbing Wholesale customer base; direct selling is not nor has it ever been our practice. Our loyalty remains with our Plumbing Wholesaler and their knowledge and service before and after the sale has always been the key to our success.

### **Statement Of Warranty**

Precision Plumbing Products of Portland, Oregon (USA) warrants our manufactured products to be free from defects and workmanship under normal use and service. The sole and exclusive remedy for our manufactured products that do not conform to this limited and express warranty and our sole obligation under this limited and express warranty is to replace the defective part or product during the three year period after original installation.

This warranty excludes any parts or products that are modified or improperly installed or installed where PH levels, chemical conditions or electrolysis prematurely degrade the product. We specifically disclaim any warranties or responsibility for defects due to quality, material, dimensional tolerances or quality control of any fitting or other third party supplied parts or components. **EXCLUSIONS OF ALL OTHER WARRANTIES INCLUDING IMPLIED WARRANTIES:** All other warranties, including the implied warranties of **MERCHANTABILITY** and fitness for a particular purpose, are **EXCLUDED** from this transaction and shall not apply to goods sold by us.

The above warranties are in lieu of all other warranties and representations, express or implied, and all other obligations or liabilities on our part. We shall not be liable for consequential damages, loss of profit, interruption of business or any other special, incidental, or punitive damages suffered or sustained by Customer. Any part or products being returned under this warranty must have prior authorization by us. Any part or product received by us without a return of goods authorization will be returned to the shipper. All returned merchandise must be prepaid by shipper.

Our personnel, including salespeople, as well as independent distributors and sales agents may have made oral statements about our products. Those statements are not warranties by us and should not be relied on by the buyer/customer/user. If you use this product you are agreeing to this warranty contract between us. This writing constitutes the final expression of the parties and is the complete and exclusive statement of that contract for warranties.
