Cocoagranola LLC

Our First Outing

Issue 19 June 26, 2021

Greetings all!

It's been quite the busy week for all of us at 3 Visions Farm! My wife and I recently made our final push to join the farm in person in Thurston county. We've been awed and thrilled for the major transition to such a green state; it's truly the perfect place to cultivate the vision of the farm. We were even able to taste a small bit of what nibbles had borne fruit by the time we got there! You just can't replicate the elevated flavors that come out

of carefully tended dirt.

Today we snuck out before the heat hit to the local farmers market. There was a small strip of stalls on either side of a parking lot filled with some of the most luscious greens and vegetables. Country Classics LLC had gigantic squash and zucchini that was harvested from their high tunnels. Vienna Garden nearby had huge leaves of swiss chard with stalks of bright yellow and candied red. Wishing Willow was run by two men who gave us excellent advice on what to look out for in the dirt and about the local markets, counters loaded with various starters and veggies. There wasn't a place we visited that wasn't eager to assist and share their knowledge. It was heartening to see the range of experience present.

The entire event was very welcoming as it was an eye opener to the area. From jams, goat milk soaps, jewelry to cuts of beef and pork, the small area held an eclectic taste. Everyone had their own style but were obviously tight knit with each other. Even those who had only been at the market for the first year welcomed us with open arms. They seemed to sense the passion behind our drive and were all too eager to support our mission. We couldn't be more thankful for it and it charged us up for the task at hand. I cannot wait to explore the community deeper; for us to stretch our roots and share what they've given to us.

Thanks again and stay tuned for the next update!
