Volatus Infrastructure Goes Global

Volatus Announces Latin America Business Development Team

Neenah, WI – May 31, 2022 – Volatus Infrastructure, LLC is proud to announce the formation of our Latin America business development team, located in Quito, Ecuador, South America. This expansion is a key step in bringing affordable electric vertical take-off and landing (eVTOL) infrastructure to the world.

Volatus-LATAM will be responsible for sales, promotion and development of Volatus Infrastructure vertiports throughout Latin America. Latin America consists of 20 different countries and 14 territories. Volatus-LATAM will be connecting communities in Latin America by building affordable and sustainable eVTOL infrastructure to ensure as many communities as possible are ready for the future of transportation.

The vital importance of global accessibility is the foundation to ensuring no community is left behind. With the formation of our Latin America business development team we will bring tech forward transportation infrastructure to diverse locations throughout Latin America.

Founded in 2021, Volatus Infrastructure, LLC is connecting communities to the future with best-in-class eVTOL infrastructure technology to ensure society is ready for the future. Volatus offers three main vertiport designs, a vehicle agnostic charging station, plus an app and maintenance programs. By tailoring to specific needs while incorporating the latest technologies their work positively impacts clients and the communities they serve. Join the future with Volatus Infrastructure.
