Volatus Infrastructure Partners with Global Aerial Management Group
Volatus partners with GAMG for business development and vertiport management

Neenah, WI – August 16, 2022—Volatus Infrastructure, LLC and Global Aerial Management Group (GAMG) have partnered to provide business development services for the southwest area of the United States. In addition to providing business development services for Volatus, GAMG has been named their preferred electric vertical take-off and landing (eVTOL) infrastructure management company.

GAMG is spearheaded by powerhouse Toni Drummond. “Having Toni on our team with the knowledge and expertise she brings to the table is creating an unstoppable business development team for Volatus,” said Grant Fisk, Co-Founder of Volatus Infrastructure. “Being able to provide a preferred vertiport management company will allow the eVTOL infrastructure ecosystem to expand at an even greater rate.”

“When I discovered Volatus I knew I had finally found the correct solution for eVTOL infrastructure,” said GAMG Founder, Toni Drummond. “I’m eager to help bring an accessible, scalable solution to the market now, so we can stop theorizing about it and get to work.”

Global Aerial Management Group (GAMG) is a solution-oriented company focused on furthering the progress of emerging technologies with a concentration on uncrewed and autonomous flight and mobility. GAMG is focused on emerging technologies in Advanced Air Mobility (AAM), mobility, drones and Unmanned Aircraft Systems (UAS) integration, and new sustainability initiatives. GAMG is diversifying their expertise to enable the evolution of services offered. GAMG has a uniquely crafted and specialized approach to provide effective results. GAMG is a proud Women Owned and Operated business and are the proud winners of the 2021 Women and Drones, Women to Watch Volatus Aerospace Team Innovation Award.

Founded in 2021, Volatus Infrastructure, LLC is connecting communities to the future with best-in-class eVTOL infrastructure technology to ensure society is ready for the future. Volatus offers three main eVTOL infrastructure designs, a vehicle agnostic charging station, plus an app and maintenance programs. By tailoring to specific needs while incorporating the latest technologies their work positively impacts clients and the communities they serve. Join the future with Volatus Infrastructure.
