

Services Offered

With over 30 years experience in Industrial Distribution we have extensive product knowledge and we know where to get the right product at the best price.

VIRTUAL CONSULTANTS

Whether it's regular stock replenishment or a large project, let the consultants at Gryphon take care of getting you the best value for your money. We have more than 30 years experience sourcing a wide range of products including Power Transmission, Industrial and Safety, Repairs and Re-winds. By leveraging the various specialities of multiple suppliers and Distributors, we secure "best price", every time, generating Cost Savings.

Simply email a list of your requirements to us and we do the work for you. What you get back is your RFQ filled in with your best price and delivery. We do the legwork, freeing you up for other tasks. You only need to issue the Purchase Order.

ON-SITE CONSULTANTS

Need help identifying product? Sometimes tags fall off, nameplates get painted or you have an OEM parts list that needs to be converted to usable manufacturers part numbers.

We can help!

We'll come to your facility to correctly identify those items.

PROJECT CONSULTANTS

Planning a Capital project and have a large list of product to source and quote?

Let Gryphon source your RFQ for you.

COST SAVINGS

Documented Cost Savings provided if applicable and historical purchasing history is available.
