

REAL ESPAÑOL AFTER SCHOOL ENRICHMENT

In REAL Español we create lessons that are fun, interesting, interactive, and challenging!

Research shows that children who learn a second language have long-term benefits such as better memory, increased creativity, and problem-solving skills. A second language opens doors and builds bridges.

Our club is designed to provide students with many opportunities to be involved in the Spanish language. Each activity is designed to introduce or strengthen the understanding of Spanish language. It sounds like a lot of REAL Español!!

REAL Español is \$200 per semester and be taught by Mrs. Gonzalez on Tuesday afternoons.
