Students have FUN while learning SCIENCE!

Our unique science programs are designed to meet the needs of children in grades K-8. The units are rigorously researched by science educators with the help of teachers and children. The results are lessons that students enjoy and genuinely learn from.

Online Registration!

School Break Camps

Full STEAM ahead! These combo camps will feature exciting Science, Technology, Engineering, Art, and Math activities to spark the imaginations of our campers.

Start planning now for the upcoming school year!

Multiple locations to choose from.

Visit our website for complete details.

Summer Camps

Make sure to participate in our Awesome Summer Camp program!

Fine Arts Camps, Science & Technology Camps including robotics, Music Camps, and Combo Themed Camps. With all of these great offerings in the same location, you can find the perfect theme for every camper! Camp curriculum is age appropriate with hands on projects and experiments designed to keep your camper active and learning all summer long. Several convenient locations and several weeks of camp in June and July.
