Preparing Productive Citizens that are College and Career Ready

March 2022 Issue-MS/HS

From the Principal's Desk:

This Friday brings an end to the 3rd quarter. Parent Teacher Conferences will be from 1:00-7:30 on Thursday, March 17th. School will not be in session on Friday, March 18th. Many of the teachers will be offering incentives for attendance to these conferences. We feel conferences are a valuable piece of student learning as it allows for parent-teacher communication. I can't stress enough to parents that an important way to check on your child's grades is through the SIS portal and that you can keep updated on missing assignments through the emails from our Gradewatch program.

There are many exciting events happening this month that we look forward to sponsoring for our students. This month includes: HS Scholar Bowl events, FFA contests, a K-12 Talent Show, County Government Day, an Art Trip, Middle School MORP, Track meets and Baseball games! It is an opportunity for our students to showcase their numerous talents and skills!

We really appreciate the tremendous support from parents and community members at our recent Academic Showcase. It was a wonderful evening and a great opportunity for our students to display and demonstrate their academic works from this semester. We also appreciated the various performances throughout the evening. We are excited about the continued growth of our Academic Showcases in future years!

Our students continue to explore and expand their knowledge of STEM through our Innovation Lab. This quarter, they have started units involving VEX Robotics and the Glowforge (laser engraver). This is just one component of developing skills which help

our students become college and career ready. We look forward to our students' continued growth and success in developing these skills.

In the coming weeks, our teachers and students will begin reviewing for our upcoming state assessments. It is important that in the next month, our focus is on learning and achievement to help us reach our performance goals. Please continue to monitor your child's progress and feel free to contact any of our teachers if you have any concerns or questions about your child's progress. Thank you for your continued support of our students and all the wonderful things that they do!

-Roger Johnson-MS/HS Principal

HS Art Display

News from the Nurse:

March is National Kidney Month

Did you know:

Kidneys are two bean shaped organs, each about the size of a fist.

Drinking plenty of water each day is a simple way to help your kidneys.

March is also National Nutrition Month

Eating a well balanced diet, containing healthy foods is essential in helping you to grow strong, and properly, to have energy, and also helps make it easier for your brain to function and learn.

On Wed April 13th, we will have the Health Department come to the HS and offer the MCV and TDAP shots to any current 6th graders-7th graders and also 11th graders who need their series updated. These will be the only shots given and will only be given to those students with parental permission beforehand. Please watch for more info to come.
