## Ag

<https://green-and-growing-education.teachable.com/p/green-growing-digital-learning-resources>

With the current situation, Sports Turf Managers Association (STMA) would like to support what Ag Teachers are doing in the digital classroom during this at-home learning period that is affecting us. STMA records education sessions each year at their Annual Conference and we would like to share the recorded seminars. Experts in the field, including academics and practitioners, share research and best management practices for turfgrass surfaces used in sport.

To access sessions from 2019, please follow these instructions:

### **ACCESS THE ONLINE LIBRARY NOW!**

**Username:**

**STMA-Library-User-2019**

**Password:**

## Art

I have put up a Photo challenge for Art I and II for this first week. I have put up a task for Art III and IV for today. I have also put up something for the 6th grade for today. These are all on students' Google classroom as Enrichment. I will add more each day or week. Let parents and students know that the enrichment is on Google classroom please. YouTube has a channel called Art for kids hub that shows how to draw different subjects. Artrageous with nate gives short lessons on art and art history. Museums' websites are still up and running. Here are a few: The Louvre <https://www.louvre.fr/en> The Metropolitan Museum <https://www.metmuseum.org/> The Smithsonian <https://www.si.edu/museums> The Albrecht-Kemper Museum in St. Joseph Missouri <http://albrecht-kemper.org/> The Nelson-Atkins Museum in Kansas City <https://www.nelson-atkins.org/> The Kemper Art Museum in Kansas City

<https://www.kemperartmuseum.wustl.edu/>

Thank you

---

## **Business**

The students need to check their Google classrooms for Mrs. Frueh. Mrs. Frueh is posting enrichment activities for students to complete.

7th-grade Keyboarding- The link for Entrepreneur E-learning Enrichment activity or Typing Lessons are posted in the Google Classroom stream.

Business Technology- The link for exploring technology's role in current events activity is located on the Google Stream.

Computer Applications- The link for Net Zero Architect enrichment activity or typing lessons are posted on the Google Classroom stream.

Computer Science- The link for an enrichment activity on Google Stream or students may log in to their Edhesive to complete enrichment activities.

Accounting I- A link for students to view how to organize college choices on a Google Sheet. Students can research college choices and post their information to a google sheet.

Accounting II- I posted information about local scholarships that are due in April. I made notes about due dates and attached a pdf of the scholarship application form posted to the Google classroom.

Yearbook- I posted a link on the Google classroom asking students to complete a digital online photo journal. Students may also log in to their Yearbook Avenue and work on spreads.

### **Additional Link for any High School Student**

<https://www.freecodecamp.org/news/here-are-380-ivy-league-courses-you-can-take-online-right-now-for-free-9b3ffcbd7b8c/>

On this link, there are 450 courses that are offered through Ivy League schools. The courses can take about 6-8 hours a week and the courses are set up for 4 weeks. Students can complete the work at their own pace.

## Possible courses

- Computer Science
- Data Science
- Programming
- Humanities
- Business
- Art & Design
- Science
- Social Sciences
- Health & Medicine
- Engineering
- Mathematics
- Education & Teaching
- and Personal Development

## **Math**

<https://www.khanacademy.org> this site is for all math middle schoolers, they all have their login information and use this site weekly. However if they have forgotten their login information they may email me and I can get it to them.

<https://www.prodigygame.com>

6th and 7th grade students are registered as a class already for this site. Again if they do not have their login info they may email me and I can get it to them

<https://www.coolmathgames.com>

This site has all kinds of math games for all middle schoolers.

High school students can work through the lessons found at <https://www.khanacademy.org/math/high-school-math>. The lessons are sorted by class.

---

## **Music**

[http://www.musictechteacher.com/music\\_quizzes/music\\_quizzes.htm](http://www.musictechteacher.com/music_quizzes/music_quizzes.htm) This site is for middle school and high school general music. There are worksheets that you can print off and quizzes or games to play.

<https://www.musictheory.net/exercises> This is for high school music. There are different lessons to work on plus exercises to help identify different musical terms.

<https://www.classicsforkids.com> This is for elementary music. There are different lessons to look over, games, and music to listen to and ask questions on.

<https://www.youtube.com/user/Kidslearningvideo/videos> This is a great youtube channel for elementary kiddos. There are informational videos along with different songs to help learn something new.

---

## **Science**

For science I have a link to my quizlet class page on each of my google classrooms. Following the link students can access study sets for a variety of the topics covered in their class and the links are filtered by class content so Biology wont access the Physical Science sets. These sets will be updated and added to as time goes on and students can email me if they believe a set is missing or if they have recommendations of other sets they find online while browsing on their own.

Health Websites [www.everfi.com](http://www.everfi.com) - All health students already have an account here

<https://www.ck12.org/book/teen-health-literacy/> - MS/HS
