South Gilliam County Health District Board,

I am officially resigning and will work through April.

A special district exists for a sole purpose. In our case it is to provide healthcare. In order to provide good healthcare you have to have the best staff with the resources you have. That is your obligation. Somewhere along the line, this sole purpose got lost. I hope you will move the staff a little higher on your priority list and keep them informed of your intentions.

You will have a very rocky road ahead of you and for the sake of the staff and patients, I wish you all the best.

Hollie Winslow
