Good morning,

I am interested in serving on the South Gilliam County Health District budget committee. I am a 25 year employee of the Oregon State University Extension Service, but also manage the financial operation of my family's ranch in Gilliam County. My experience with the public budget process includes:

- 4 years with Condon School District 25J as a board member
- 2 years with the North Central Education Service District as a 25J appointee
- 25 years with the Gilliam County Soil & Water Conservation District (GCSWCD) as a board member and financial staff liaison as Board Chair.

During my service with the GCSWCD, I have been involved in three different bookkeeping transitions to continually improve District operational efficiency and accountability. The Board has put into place a system of checks and balances to ensure the integrity of District financial operations. Within that system I am the third individual to review expenditures and checks, prior to Board approval to sign checks.

Thank you for considering my interest in serving on the South Gilliam County Health District budget committee.

Sincerely,  
Jordan B Maley
