# Think Open

## TECHNOLOGY FOCUSED ON USABILITY

- **Minimalist**, thanks to its avant-garde and innovative design.
- **Customisable Design**, designed for new doors, with a configuration allowing a free choice of handle, with all mechanisms, electronics and batteries located inside the door, a reader and customisable keyholes.
- **Unlimited Audit Trail**, openings, opening attempts, exits, etc. Audit synchronized with the front desk PC.
- **Bluetooth**, for guest openings, setting up, management and maintenance of the lock.
- **On-Line**, remote opening and management by including Gateways in the installation.
- **Control**, installing in a room the EVO lock, the EXO safe and the Gateway allows remote management and control of both devices.

CONNECTIVITY

Remote opening & management, including **Gateways** in the installation
