June 15, 2009

There has been much debate concerning the classification of "Small, Portable inflated Pools for children" (Restrictive Covenants Phase 1-4, item 13)

The Board has met and decided that the following Definitions/Rules will be applied.

- Inflatable Pool No Larger than 8' by 30"
- Pool needs to be emptied or covered each night
- Pool can be inflated and "set up" from Memorial Day to Labor Day each year
- Pool needs to be set in back yard of house not visible from the front of the house
- Pool must be kept well maintained.

If there is any questions concerning this guideline please contact one of the Board Members.

Thank You and Enjoy your Summer!
