## Sensory Room Audit

# ND Consultancy

## Now on Offer! Sensory Room Audit

Each neurodivergent person is unique and will have variations in ways of communicating, socialising, thinking and processing information.

The Sensory Room Audit can help identify individual sensory triggers in the study / work / living environment that impact work performance, workflow, concentration, feelings of anxiety, and team connection.

With the Sensory Room Audit, ND Consultancy can provide you with reasonable adjustment suggestions and practical support tips.
