ABOUT ME

"Football has brought me to the United States from across the world. As with all things worth doing, it hasn't been easy. Discipline and practice are required but I've learnt that a little patience goes a very long way."

EXPERIENCE

Football

Running Back

- My love for football originated in New York City. I saw a giant NFL billboard in Times Square and immediately knew that I wanted to play the game.
- I started off on the Offensive Line in Middle School with very little knowledge and ability.
- Over the years, I have taken steps to get into physical shape and improved my overall field work.

Rugby

Left Wing

- I loved Fettes College - a school that required you to take up both sports and music, regardless of ability.
- It was all trial-by-fire as we were thrown into games against more experienced teams in the school league.
