CASABLANCA
FAN COMPANY

120v/60Hz Selection Guide 2021

Hunter.

Our Very Best. All Together.

A FAN FOR LIFE

Life can be a whirl, but Hunter has a ceiling fan that will fit right in. Your style and even your mood can come out in our fans. From the right lighting options to the perfect colors, we make fans for life.

INSPIRED DESIGN IS ALWAYS IN STYLE.

John Hunter taught us to look beyond the latest interior design trends to find something fresh and exciting. Inspiration can be around any corner, classic looks can always be switched up for a modern flair, and there's always an interesting partnership to be made that can turn your ceiling fan into a centerpiece.

WORRY FREE AND WOBBLE FREE.

Hunter ceiling fans are designed to be as dependable as they are whisper quiet. We test, and test, and test each design a little too much. In fact, we perform more quality testing than any of our competitors. If you're interested in our testing process watch our video. You'll see how we test for weather conditions, vibrations and a lot more.

GOOD LOOKS AND THE SMARTS TO MATCH.

You deserve complete control of your comfort. Hunter fans incorporate smart home technology to give it to you. The latest innovations are always welcome in our fans and they'll be welcome in your home.

I MAKE THIS LOOK BREEZY.

"When you've been doing this as long as me, you get pretty good at it. But I like to stir things up, and I'm always challenging myself with something new."

John Hunter
