## Mandi Brown Founder

"On July 3, 2017, I got a text that changed my family's life forever. The father of my 4 children and my husband of 16 years took his life. My immediate focus was on my children..." Mandi Brown was the recipient of that text. It was in the healing process of her own family when the idea of The Loved Ones Left Behind came to life.

This foundation was started to help pay for counseling or bills for a family so they can focus on the healing process. TLOLB also wants to help those that need suicide help.

If you are passionate about what we're doing, let us know!

## Mission

Helping empower families to recover from suicide through financial and emotional support. Also, to help promote suicide prevention and awareness.

The word caught your attention, didn't it?

The truth is, suicide catches everyone's attention. It's the actions leading up to suicide that go unnoticed. It's the healing of those left behind from a suicide that is necessary.
