Henry Baverstock

I have finished my final year of my Film Practice degree at London South Bank University, and I am looking for a full-time role in creative industry. I am driven, ambitious, and creative as shown by my desire to seek out opportunities within the industry outside of my degree. On top of filmmaking, I have a deep passion for music, art, photography, and writing. I have sold my own original artwork and have taught myself both the guitar and the electric bass.

I was a runner during the production of a feature film for Amazon Prime. I spent the majority of my working hours copying call sheets and scripts, alongside providing cast and crew with food and drink.
