

## **Safeguarding and Welfare Requirement: Health**

Where children are provided with meals, snacks and drinks, they must be healthy, balanced and nutritious.

### **6.5 Food and drink**

#### **Policy statement**

We regard snack and meal times as an important part of our day. Eating represents a social time for children and adults, and helps children to learn about healthy eating. We promote healthy eating using resources and materials from the Pre-school Learning Alliance. At snack times, we aim to provide nutritious food, which meets the children's individual dietary needs.

#### **Procedures**

We follow these procedures to promote healthy eating in our setting.

- Before a child starts to attend the setting, we ask their parents about their dietary needs and preferences, including any allergies. (See the Managing Children who are Sick, Infectious or with Allergies Policy.)
- We record information about each child's dietary needs in the Registration Form and parents sign the form to signify that it is correct.
- We regularly consult with parents to ensure that our records of their children's dietary needs – including any allergies - are up-to-date. Parents sign the updated record to signify that it is correct.
- We display current information about individual children's dietary needs so that all our staff and volunteers are fully informed about them.
- We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences, as well as their parents' wishes.
- we advise the parent of the snack we have by displaying a note in our window to be seen at home time.
- We provide nutritious food for all meals and snacks, avoiding large quantities of saturated fat, sugar and salt and artificial additives, preservatives and colourings.
- We include foods from the diet of each of the children's cultural backgrounds, providing children with familiar foods and introducing them to new ones.
- We take care not to provide food containing nuts or nut products and we are especially vigilant where we have a child who has a known allergy to nuts.
- Through discussion with parents and research reading, we obtain information about the dietary rules of the religious groups to which children and their parents belong, and of vegetarians and vegans, as well as about food allergies. We take account of this information in the provision of food and drinks.
- We show sensitivity in providing for children's diets and allergies. We do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of her/his diet or allergy.
- We organise snack times so that they are social occasions in which children and adults participate.
- We use snack times to help children to develop independence through making choices, collecting a plate and cup, choosing snack, pouring their drink and feeding themselves..

- We have fresh drinking water constantly available for the children. The parents are encouraged to bring a named drinking bottle filled with water daily for their child. Throughout the session the child can access their drink.
- In order to protect children with food allergies, we discourage children from sharing and swapping their food with one another.
- For young children who drink milk, we provide semi-skimmed milk from the age of two years.

### *Packed lunches*

The children are required to bring packed lunches, we advise our parents/carers that

- The lunch bags are not refrigerated and recommend an ice pack to keep food cool is placed in the lunch box/bag
- Inform parents of our policy on healthy eating;
- Encourage parents to provide sandwiches with a healthy filling, fruit, and milk based deserts, such as yoghurt or crème fraîche, where we can only provide cold food from home. We discourage sweet drinks and can provide children with water or diluted fresh fruit juice;
- Discourage packed lunch contents that consist largely of crisps, processed foods, sweet drinks and sweet products such as cakes or biscuits. We reserve the right to return this food to the parent as a last resort;
- provide children bringing packed lunches with plates, cups and cutlery; and
- Ensure that adults sit with children to eat their lunch so that the mealtime is a social occasion.
- Cutting of grapes/ small objects as may cause choking – We will cut fruit ie apples

### **Legal framework**

- Regulation (EC) 852/2004 of the European Parliament and of the Council on the Hygiene of Foodstuffs.

This policy was adopted by	_____	<i>(name of provider)</i>
