“It is the special province of music to move the heart.”

Dear Gary and Kevin,

I wanted to take another moment to thank both of you for your assistance and support during the 2018 Carmel Bach Festival. With so many moving parts in so many places, it was a relief to be supported by reasonable men, who were appropriate measures of helpful and pleasant to collaborate with. As I've told both of you, for years the backstage support has been support in name only and both of you are refreshing changes; men of action who are clear, knowledgeable and congenial. Thank you.

I hope next summer presents us with the same opportunities to collaborate and learn from previous experiences and make improvements where possible. Thank you again so much and I hope to see and work with you again in the future.

Sincerely,

Douglas Mueller
Production Manager
