---

Gary, this news lands with the suddenness of an unexpected gut-punch.

I believe that my tenure as the LAS production manager (or whatever I am) coincided with your arrival at the Bankhead, so I very much appreciated your calm expertise and the patience you showed towards a production newbie like me.

You were always generous with your time and quick to meet or adjust your schedule to facilitate the smooth staging of our shows, and resolve any unexpected contingencies quickly and with good humor.

You also provided a well trained and cheerful stage crew that was always eager to help with our rehearsals and concerts.

I will very much miss collaborating with you on future LAS productions.

Wishing you all the best,  
jim
