

Tomorrow's World Order

Official Strategic Launch

Founded
SINCE 2018

*As the new global leaders, overseers,
negotiators, facilitators, mediators,
intermediaries, defenders of the defenceless,
peacekeepers, among other things.*

**IMPORTANCE HIGH. TAKE TIME TO READ. THE FUTURE DEPENDS ON ALL OF US
INCLUDING YOU.
12 May 2022**

IMPORTANCE HIGH. TAKE TIME TO READ. THE FUTURE DEPENDS ON THE ISSUES
ADDRESSED IN HERE.

The current Russia-Ukraine war/special military operation has highlighted gross serious shortfalls in the current international system. There is no one out there to stop wars or intervene or be involved in conflict resolutions whatsoever.

A sad reality and a pointer to the dysfunctionality of the current system.

Hence our presence.

We are Tomorrow's World Order, the new global leaders to stop wars once and for all by putting a new system of global governance, law, and order. A system that will fade out weapons and global financial problems. The real reasons behind all wars. We are officially registered in the United Kingdom but we don't represent anyone nor do we stand for the United Kingdom.

We stand for all humanity. We are global and not restricted to the United Kingdom.

We believe that the death of a woman or child due to wars is an attack on all of us.

It is a challenge as the risks of an all-out nuclear war increase as tensions grow due to NATO's expansion and other problems posed by Russia.

Tensions have been at an all-time high as threats of nuclear war increase.

We can't leave things to chance. We don't want another Hiroshima.

>What can be solutions for the West can't be solutions for the whole world. We have precedence of wrong judgments and to some extent criminal activities in the Hiroshima bombings, Iraq war, Afghanistan war etc.

>What can be solutions for Russia can't be solutions for the world. The current war/special military operation is evidence to that.

>What can be solutions for NATO can't be solutions for the whole world. NATO's expansion and recruitment drive that tends to attract Ukraine, Sweden and Finland among others is probably the trigger of this war and wars to come or all future tensions as long as Russia will feel that NATO is too close for comfort etc.

What can be solutions for the East can't be solutions for the whole world. Wars with other eastern-countries is proof of all this.

BUT whatever are solutions for Tomorrow's World Order [TWO] are solutions for the whole world.

We will put things in place to make sure that there will never be a nuclear war or the use of nuclear weapons in our time and ever again.

It is a challenge but a challenge worth fighting for.

A journey we must all undertake as a people.

We are mainly concerned with acts and tensions that pose a risk to the existence of humanity. Conflicts where the potential use of weapons of mass destruction is high, either nuclear weapons or the technologically induced-concealed digital pathogens.

We know that NATO arose to deal with the threat posed by the Soviet Union now Russia.

Without Russia, NATO will cease to exist or will lose its meaning of existence.

As NATO expands to match the threat posed by Russia this can only make Russia increase its nuclear arsenal and the need to defend borders will mean forever conflicts especially with Finland and Sweden considering joining NATO as well..

That means forever increased tensions and chances of a nuclear war.

Therefore we MUST be the conflict-resolution-leaders to put a contingency plan to resolve and mitigate conflicts fast and safely.

We provide channels for negotiations and unconditional peace talks.

We are mediators, facilitators, referees, judges, and assistants in all conflict resolutions, especially ones that can escalate to human extinction levels.

We are against invasions of sovereign nations.

We are against the holding of sovereign countries into hostage situations due to loan [IMF or World Bank] debt.

We are against dirty tricks of recruiting members or of triggering weapons sales/deals.

We are against fueling wars for country gains eg through weapons sales especially where dialogue could have resolved the conflicts.

We are against holding of foreign-debt-burdened nations hostage.

We are against loan shark tactics of offering loans to countries in conflicts.

We are against all wars that kill innocent women and children.

We are against sanctions that kill women and children so as to bring governments to the negotiating table.

We believe in countries fighting for freedom but must take civilian deaths into account as well.

All acts must be in line with international laws.

Read our Constitution and all our guiding principles.

We aim to change the system from the defensive stage we are in where weapons are the drivers of the economy to a stage of high technological development, networking, and cooperation. A stage where technology is the driver of the economy.

The world has never needed a system change ever more than now.

The world needs us. All conflicts will need us.

Simply because the tensions and risks of a nuclear war are greatest right now. As NATO expands and Russia remains defiant in invading Ukraine and threatening to retaliate to any joining of NATO by close countries.

Who doesn't want peace? If not for you then think about your children and their children? Just read about Hiroshima. Then you will take us seriously.

Do your best.
