

WELCOME GTPS.FINANCE

GTPS

Staking and Yield Farming.

Cross Chain asset transfer.

Best bridging asset.

**Global digital currency. The new single global reserve
currency.**

THE PROBLEM

A lack of decentralised financial instruments to increase financial inclusion.

Lack of a bridging platform to link all blockchains as one for smooth and cheaper transfer of assets.

High bridging and transacting fees.

Lack of a link between the DeFi and the centralised financial systems [Central Bank Digital Currency CBDC]

Presence of a dysfunctional financial system that increase inequalities and poverty.

Lack of global development progress. So many global problems.

THE SOLUTION

A platform to link the centralised and the decentralised systems.

The best staking and yield farming protocol to increase financial

inclusion. The best asset transfer token system [GTPS] making

transfers faster and costs cheaper. GTPS as the official digital

currency of the world. GTPS as the official new single global

reserve currency to replace the US\$. The best financial system to

increase wealth levels for all humanity to new levels.

A comprehensive package to deal with all things that prohibits

wealth accumulation. New laws, new governance systems and new

financial systems.

MARKET SIZE

**We intend to make GTPS the official digital currency of the world.
We intend to make GTPS the new single reserve global currency.
We are global. A whooping 7.7billion users! That is something to
think about.**

THE PRODUCT

A platform to link and bridge the centralised & the DeFi systems.

A token to trade on a global scale.

The best staking and yield farming platform and token.

The best bridging asset for easy transfer of assets cross chain.

The official global digital currency.

An official new global single reserve currency.

The best loyalty token.

The best yield reward token in GTPS.FINANCE to reward stakers and holders.

A new system of global governance and management.

A new financial systems that lifts wealth levels for all.

BUSINESS MODEL

Take between 10-20% harvesting fees from staking and yield farming at harvest. Encourage staking and yield farming to add value to our token. Reward stakers with our yield token GTP\$.FINANCE. Lend and borrow deposited funds to maximise yield returns. Use automation and strategist to maximise returns. Bridge assets as a batch and collecting fees between 3-5% of volume transacted. Utilise batch process and economies of scale to reduce costs and maximise profits. Rely on mass adoption by making GTP\$ an official global digital currency and the new single global reserve digital currency. All current projects can pay fees to be included and be part of a one global financial system run by us.

MARKET ADOPTION

Effective marketing campaigns to increase market adoption. GTPS does not adopt the current dysfunctional system but introduces a new financial system to address all the problems.

All current projects are a component of our global project. We are to link and bridge all as one so huge partnership opportunities with almost everyone. Effective links and huge growth & development opportunities.

We are a global phenomenon meaning everyone included; a whopping 7.7 billion users.

COMPETITION

Everyone From the DEFI to the central systems can be a competitor BUT all are components, parts & partners of our project. All make what we are trying to achieve; bridging and linking all to reduce transfer costs and increase speeds. We intend to introduce Full-scale inter blockchain transfers and communications on a global scale. We intend to link all blockchains and players and introduce GTPS as the official digital currency of the world. We intend to provide a platform that will make it easy for all to transact and network. We are to link all as one; so all parts of our system. Parts which we will join together like a jigsaw puzzle.

COMPETITIVE ADVANTAGE

We are pioneers of a new system. We are global and have a market of 7.7 billion users. We can use economies of scale and batch processing to reduce fees and costs.

Mass adoption can make us reduce fees and not worry about short term profits rather with long term returns. We have a holistic approach to global problems in dealing with finance, law, economic and social factors. We have no competitors as we are to bridge and link the centralised CBDC and the DeFi systems. Everyone is our partner. All current projects can pay joining fees to be part of our system. Ease of use and best transfer reduced fees and speeds.

GTPS.FINANCE

BE PART OF SOMETHING NEW A PIONEER

Our system brings wealth to all to levels never imagined before. It increases Financial inclusion. It gives rare opportunities to anyone to accumulate wealth as long as they stake our GTPS and get involved in yield Farm. It levels wealth opportunities. Making high street Financial instruments be available to anyone who has GTPS. It is a holistic approach and leads humanity out of the defensive stages of development. It stops the killings of women and children due to wars over Fossils Fuels. It bans wars, Fossils Fuels and invests heavily in alternative Fuels.

**JOIN US BE PART OF
SOMETHING GREAT**

A NEW FINANCIAL WORLD ORDER
