## Textile & Retail Services

OLEA Textile was founded in the late 1990s starting with tailoring activities. In the early 2000s; OLEA started to sell retail textile, haberdashery and home textile products both to fulfill the needs of the tailor and to transform the client potential to the additional sales. In 2002, retails were began to made at three points; two in Muğla and one in Denizli.

## About Us

OLEA Textile's first overseas activities have begun in 2008, with the marketing of ready to wear and home textile products originating from Turkey to Southern Europe (Spain, Italy and France) and the Middle Eastern countries.

With the title of OLEA Textile and Retail Services, it operates in many fields such as sub-production, production tracking, product and clothing design, including Wholesale, Retail, E-Commerce and Corporate Sales.

OLEA Management Consultants synthesize their experiences gained in all these processes and their experiences from local and global companies (including management and consultancy) which they have worked for a long time under the umbrella of OLEA Management Consultancy. In line with the needs, they create management support and training programs for SMEs and large companies that are in growing/change and carry out projects in different fields with these institutions.
