

# Flying Geese Challenge

*or*

How to Design Your Own Table  
Topper with Graph Paper

# BOM for March: 4-Patch Diamond

- Simple, fun block
- Uses 4-at-a-time flying geese
- Linda and Melissa set up a live tutorial last month
- Directions can also be found in the March Newsletter

# Now That You Know How...

- ▶ CHALLENGE!
- ▶ Create your own table topper/runner\*
- ▶ Any size, any colors
- ▶ Any pattern
- ▶ Must use a good amount of flying geese
- ▶ Due at the May “drive-by” meeting
- ▶ Prizes!

*\*(P.S. You may also create placemats, shawls, or wheelchair quilts for happy donations!)*

# Let's Get Some Ideas

*Look at these examples from the Internet.*

*There are lots to see...*

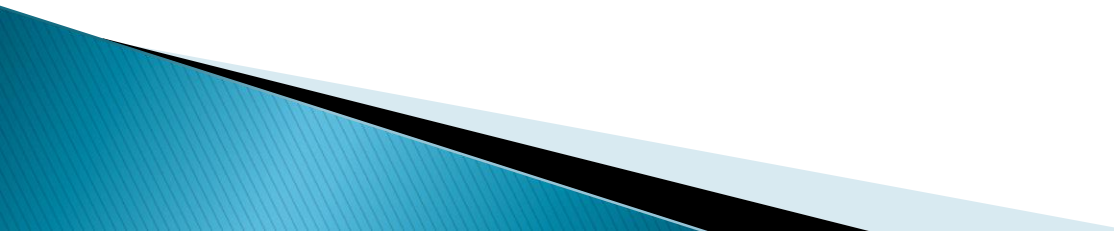

*Oopsie...How did they get in here?*

*Well, they ARE flying!*

# Let's Design First

- ❖ Sketch something you like on white paper  
*(Note: curves are not easy for those of us who are beginners, so forget curves for now.)*
  - ❖ Sew your geese, press, and measure them  
*(Write it down.)*
  - ❖ Now let's transfer to graph paper *(Got a sheet?)*
- 

# By the Way...

*There are many books, articles, or internet finds that give you tables on how to make different sized flying geese; here's one example...*

'4 at a time' Flying Geese Size Chart

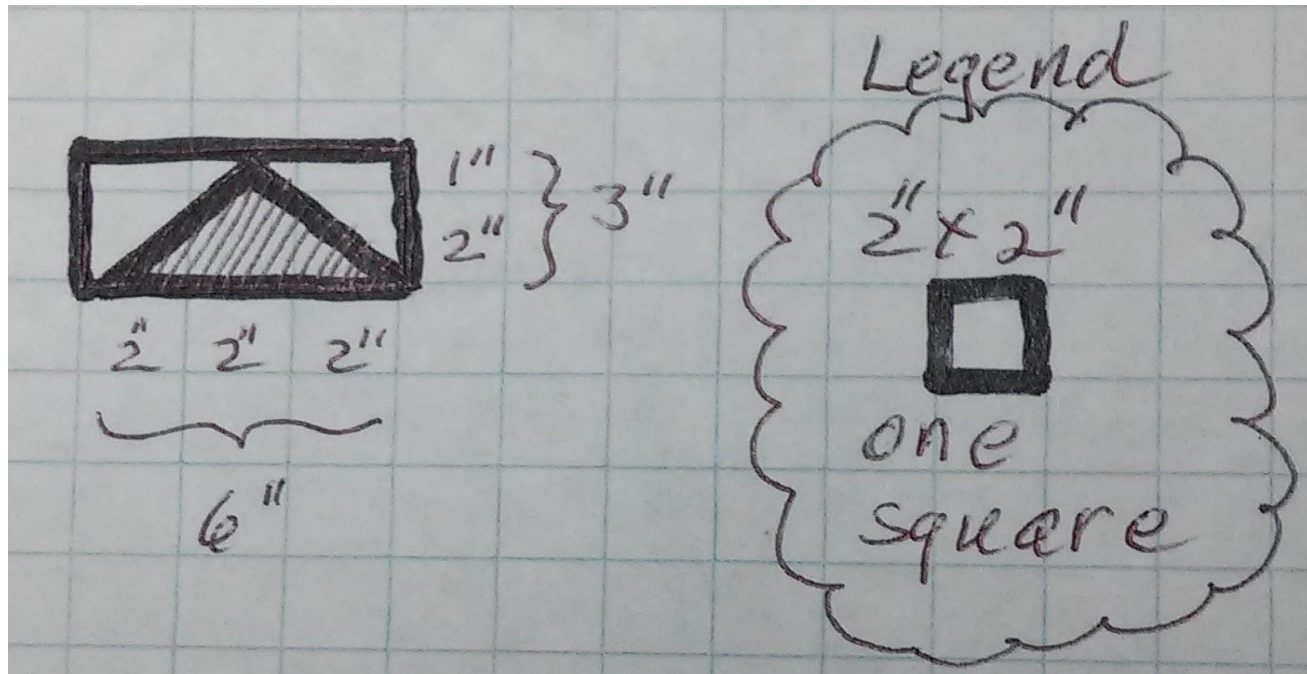

|   | <u>Finished Size</u> | <u>Cut 1</u> | <u>Cut 4</u> | <u>Trim To</u>  |
|---|----------------------|--------------|--------------|-----------------|
| A | 1/2" x 1"            | 2 3/4"       | 1 3/4"       | 1" x 1 1/2"     |
| B | 1" x 2"              | 3 3/4"       | 2 1/4"       | 1 1/2" x 2 1/2" |
| C | 1 1/2" x 3"          | 4 3/4"       | 2 3/4"       | 2" x 3 1/2"     |
| D | 2" x 4"              | 5 3/4"       | 3 1/4"       | 2 1/2" x 4 1/2" |
| E | 2 1/2" x 5"          | 6 3/4"       | 3 3/4"       | 3" x 5 1/2"     |
| F | 3" x 6"              | 7 3/4"       | 4 1/4"       | 3 1/2" x 6 1/2" |
| G | 3 1/2" x 7"          | 8 3/4"       | 4 3/4"       | 4" x 7 1/2"     |
| H | 4" x 8"              | 9 3/4"       | 5 1/4"       | 4 1/2" x 8 1/2" |

# Next, Graph Paper Work

- ❖ Let's call each square on the graph paper 2 inches
- ❖ Draw one geese (goose?) on the graph paper  
*(Our BOM tutorial from last month made a 3.5" x 6.5" raw/unfinished goose, which meant that it would become 3" x 6" when finished, i.e., sewn into the BOM. You will use the finished sizes on your graph paper. So, draw a rectangle 1 1/2 squares high and 3 squares wide; make it look like a goose.)*

*Here's what my first goose looks like on graph paper.*

*Now continue graphing your own design.  
Count every 2 inch square as you go along.  
Erasers are good tools (tee hee).*

# Voila! Now to Calculate Fabric

- ❖ Every piece or block on your graph paper will need a  $\frac{1}{4}$  inch seam allowance on the right and the left plus another  $\frac{1}{4}$  inch seam allowance on the top and the bottom
- ❖ Therefore, add  $\frac{1}{2}$  inch to every piece's width and height, and make a list

*(Feel free to color/shade your design to audition your fabric choices.)*

Here's my completed design, very easy, simple, with cutting chart. Notice that each piece has extra  $\frac{1}{2}$  inch.

| <u>PIECE</u> | <u>FINISHED</u> | <u>RAW</u>                          | <u>AMOUNT</u> |
|--------------|-----------------|-------------------------------------|---------------|
| 7 geese      | $3 \times 10$   | $3\frac{1}{2} \times 10\frac{1}{2}$ | 7             |
| A, B, C, F   | $3 \times 2$    | $3\frac{1}{2} \times 2\frac{1}{2}$  | 4             |
| D, E         | $3 \times 10$   | $3\frac{1}{2} \times 10\frac{1}{2}$ | 2             |
| G            | $3 \times 10$   | $3\frac{1}{2} \times 10\frac{1}{2}$ | 1             |
| Border       | $2 \times 18$   | $2\frac{1}{2} \times 18\frac{1}{2}$ | 2             |
|              | $2 \times 10$   | $2\frac{1}{2} \times 10\frac{1}{2}$ | 2             |

Need help? Call/email Gabrielle.

# Please Join in the Fun!

- ❖ Have your wall hanging ready to show next month (watch Newsletter for any changes)
- ❖ Please attach 2 safety pins to the top so we can pin it to a hanging sheet
- ❖ Also, pin a small square of paper to the center top so we can number it as you bring it in (voting purposes)

*Good luck!*
