## Instructions to make 4 HST's at once:

1. Cut two squares of fabric according to list above.
2. With right sides together, sew $1 / 4$ " from the edge of each side of the square.
3. Cut the square diagonally from corner to corner in each direction.
4. You will now have 4 half square triangles. Open and press them flat.
5. The HST's will be slightly larger than the "trimmed size", so square them up to the correct measurements.
